

2023

Key Investment Projects in Fujian Province

Fujian Development and Reform Commission

"With the blue sky washed clean in the Milky Way, Fujian is taking on a refreshing look under the rays." Such is a vivid description of the thriving social landscape of Fujian in a poem written in 1991 by Xi Jinping, then Secretary of the CPC Fuzhou Municipal Committee.

Fujian, the province where General Secretary Xi Jinping worked for 17 and a half years, is an important birthplace and practitioner of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era. During his work in Fujian, Xi Jinping made a series of innovations and explorations in both theory and practice, which injected strong momentum into Fujian's reform and opening-up and economic and social development.

Since the 18th CPC National Congress in 2012, General Secretary Xi Jinping has made many important speeches and instructions on Fujian and drawn an ambitious blueprint for the development of the province. Following his direction, Fujian is implementing the guiding principles from the 20th CPC National Congress, taking concrete action in pursuit of deeper theoretical understanding, greater progress, and higher efficiency, and making new advances in building China into a modern socialist country. In order to strengthen technological innovation, promote industrial transformation and upgrading, and foster new drivers of growth, Fujian Development and Reform Commission has selected 272 key investment projects for 2023, with the aim of nurturing trillion-yuan pillar industries, fostering and expanding emerging strategic industries, transforming and upgrading traditionally competitive industries, and accelerating the development of modern service industries. With detailed information on each project, this brochure will give investors and entrepreneurs a clear picture of the investment opportunities in Fujian.

Sailing with full steam, Fujian is moving closer to the dream of prosperity. We warmly welcome entrepreneurs from all over the world to follow Fujian's development and invest in Fujian. We look forward to joining hands with you in pursuing common development and win-win outcomes.

Fujian Development and Reform Commission

01 Electronic Information and Digital Industry

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
1	Fuzhou	Fuzhou National Hi-tech Industrial Development Zone	Next-generation information technology	<p>1. For the phase-III project of the Innovation Park, we plan to introduce next-generation information technology, equipment manufacturing, smart manufacturing, biotechnology, and new materials enterprises.</p> <p>2. For the Poly Communication Industrial Park, we plan to attract enterprises and partners specializing in 5G communication, smart manufacturing, electronic information, healthcare, military-civilian integration, and digital finance.</p> <p>3. For TUSCITY, we target at high-end electronic information and intelligent equipment manufacturing enterprises, while at the same time developing biomedicine, new materials, and other productive service industries.</p> <p>4. For UNIS SCI-TECH PARK FUZHOU, we plan to introduce enterprises specializing in big data, environmental protection and waste utilization, cultural and creative industries, Internet, microelectronics, and S&T services.</p>	Management Committee of Fuzhou National Hi-tech Industrial Development Zone	Huang Cheng Tel.: +86-591-83772205
2	Fuzhou	China (Fujian) Pilot Free Trade Zone (Fuzhou Area)	Next-generation information technology	<p>1. For the Liando U Valley·Mawei smart manufacturing Industrial Park, we plan to introduce enterprises specializing in next-generation information technology, new energy, high-end equipment, and other emerging strategic industries to build high-end industrial clusters of both upstream and downstream companies.</p> <p>2. For the Fuzhou (Mawei) Wanyang Science and Technology Innovation City, we plan to introduce next-generation information technology, photoelectricity, Internet of Things (IoT), equipment manufacturing, optometry, green food, and related supporting industrial projects.</p>	Fuzhou Liandong Jinxiu Industrial Co., Ltd. Investment Service Center of Export Processing Zone Office	Chen Cheng Tel.: +86-15280014769 Lin Hui Tel.: +86-15606027990
3	Fuzhou	Youlong Big Data Industrial Park, Fuzhou New Area	Big data-related industries	We plan to introduce pan-entertainment projects, such as Internet, game, and new media projects.	Fuzhou Xintou Real Estate Development Co., Ltd.	Guo Xiaoya Tel.: +86-18559869119
4	Fuzhou	Digital Yongtai Industrial Park	Digital economy	We plan to attract digital economy conglomerates to bring their smart manufacturing, precision machinery, and R&D and design segments and establish their headquarters here, as well as innovative enterprises focusing on R&D and light manufacturing.	Office of Digital Yongtai Industrial Park	Lin Yuliang Tel.: +86-18059056667
5	Fuzhou	Juyuanzhou Intelligent Industrial Park	Next-generation information technology	We plan to attract digital economy conglomerates to bring their smart manufacturing, precision machinery, and R&D and design segments, and establish their headquarters here, as well as innovative enterprises focusing on R&D and light manufacturing.	Cangshan District Land Development and Construction Investment Co., Ltd.	Jiang Yushan Tel.: +86-13950201481

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
6	Fuzhou	Taijiang Digital and Smart Port (Digital Economy Industrial Park) Taijiang Metaverse Digital Industrial Park	next-generation information technology	We plan to introduce enterprises in digital content, next-generation information technology, and metaverse sectors.	“Smart Taijiang” Management Service Center, Taijiang District	Wang Lejing Tel.: +86-18695710132
7	Fuzhou	Junhe i-Valley Coastal Science City, Fuzhou New Area	IoT and high-end electronic information industries	We plan to introduce projects relating to IoT, smart manufacturing, next-generation information technology, biomedicine, new energy, and new materials.	Fuzhou Jinjunhe Information Industry Development Co., Ltd.	Wu Yueping Tel.: +86-18650096830
8	Fuzhou	Junhe i-Valley Southeast Innovation Headquarters (Minhou County)	next-generation information technology, new materials, and precision manufacturing	We plan to introduce enterprises specializing in emerging industries such as information technology, artificial intelligence (AI), smart manufacturing, biomedicine, new energy, and new materials.	Junhe Industry (Fuzhou) Co., Ltd.	Zhao Haiqi Tel.: +86-18640304490
9	Fuzhou	Green Industry Concentration Area of Huanxi Town	next-generation information technology	We plan to introduce next-generation information technology, AI, new energy, new materials, biotechnology, and other industries.	Management Committee of Green Industry Concentration Area of Huanxi Town	Chen Qian Tel.: +86-15985745245
10	Xiamen	Tongxiang High-tech City Xiang'an Industrial Park	Upstream key components and materials for panel display	We plan to introduce LCD panel/AMOLED panel/touch screen-related liquid crystal materials, organic luminescent materials, substrate PI materials, polarizers, light guide plates, optical films/composite films, wet electronic chemicals, photoresists, glass substrates, color filters, metal target materials, metal masks/photomasks, glue/optical glue, sandblasting/spray welding projects, and others.	Bureau of Industry and Information Technology of Xiang'an District	Chen Huipeng Tel.: +86-18259120495
11	Xiamen	Tongxiang High-tech City Torch (Xiang'an) Industrial Zone Torch Huli Park	New display	We plan to introduce projects of new display equipment such as Micro-LED, Mini-LED, flexible panels, OLED and quantum dot display, those of supporting new electronic components, core materials and key components, projects relating to supporting materials such as color filters and polarizers, touch screen industry projects adopting different technical routes, vehicle-mounted and industrial control display projects, e-sports projects, and other emerging application terminal product projects.	Bureau of Industry and Information Technology of Xiang'an District, Investment Promotion Service Center of Torch High-tech Industrial Development Zone, Xiamen	Chen Huipeng Tel.: +86-18259120495 Chen Xiaoxin Tel.: +86-0592-5380918

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
12	Xiamen	Xiang'an Digital Economy Industrial Park	Next-generation information technology and application	We plan to introduce big data, cloud computing, AI, health and medical service, industrial software, and geographic information enterprises.	Bureau of Industry and Information Technology of Xiang'an District	Chen Huipeng Tel.: +86-18259120495
13	Xiamen	Tongxiang High-tech City Torch (Xiang'an) Industrial Zone Software Park Phase III	LED, integrated circuit, and compound semiconductor	1. LED: We plan to introduce LED epitaxy and chip R&D, manufacturing, and packaging projects, as well as application products development and manufacturing industrial projects such as smart and healthy lighting. 2. Integrated circuit: We plan to introduce enterprises specializing in integrated circuit-related design, manufacturing, packaging, testing, materials, equipment, and application products. 3. In the field of electronic information application, we plan to introduce emerging application projects such as automotive electronics, consumer electronics, AI, e-sports, IoT, sensors, industrial control, and aerospace. 4. We plan to introduce the R&D and manufacturing projects of the epitaxy, components (optoelectronic devices, radio frequency devices, power electronics, etc.), modules, and application products of second- and third-generation compound semiconductors such as gallium arsenide, silicon carbide, and gallium nitride, as well as supporting equipment and material projects.	Xiamen Torch High-tech Industrial Development Zone Investment Service Center Co., Ltd.	Chen Xiaoxin Tel.: +86-0592-5380918 Tian Yingpeng Tel.: +86-0592-5380192
14	Xiamen	Tongxiang High-tech City Torch (Xiang'an) Industrial Zone Torch Huli Park	Computer and mobile communication equipment	We plan to introduce computer and mobile communication equipment brands (especially mobile tablet computers), OEMs and supporting enterprises of the industrial chain, cloud storage equipment, peripherals (e.g. new projectors), smart home devices, virtual reality technology, home-made server components, supporting parts manufacturing, 5G-related wireless equipment, small base stations, optical communication devices, and other manufacturing projects.	Investment Promotion Service Center of Torch High-tech Industrial Development Zone, Xiamen	He Kun Tel.: +86-592-5380178 Zhou Changying Tel.: +86-592-5380179
15	Xiamen	Tong'an Area of Tongxiang High-tech City	Computer and communication equipment supporting enterprises	We plan to introduce mobile communication industries with the commercial use of 5G as the core, integrated manufacturing industry, and supporting and extended projects such as basic devices, supporting parts, and IT services.	Industry and Information Technology Bureau of Tong'an District	Hong Yaohui Tel.: +86-592-7558668
16	Xiamen	Tong'an Area of Tongxiang High-tech City Tong'an New City Area (Core Area of Xiamen Science City)	Software and information services	We plan to introduce software and information service projects such as information and network security, big data and cloud computing, software R&D and application, and IoT.	Industry and Information Technology Bureau of Tong'an District	Lin Yuchan Tel.: +86-592-7558669 Su Xiaoqing Tel.: +86-592-7558665

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
17	Xiamen	<p>Torch Huli Park</p> <p>Xiamen Technological Innovation Park</p> <p>Haicang Information Industrial Park</p> <p>Haicang IC Design Park (Xiamen Center)</p> <p>Cross-Strait Integrated Circuit Industrial Park of Airport North Base of Xiamen Science and Technology Industrialization Group</p>	Integrated circuit design and manufacturing enterprises	We plan to introduce design enterprises of IoT chips, driver chips, power devices, compound semiconductors (gallium arsenide and gallium nitride), and leading wafer manufacturing enterprises at home and abroad.	<p>Xiamen Bureau of Industry and Information Technology</p> <p>Industry and Information Technology Bureau of Tong'an District</p> <p>Bureau of Industry and Information Technology of Xiang'an District</p>	<p>Liu Yuxiang Tel.: +86-592-2896743</p> <p>Hong Yaohui Tel.: +86-592-7558668</p> <p>Chen Huipeng Tel.: +86-18259120495</p>
18	Xiamen	<p>Huli Digital Industrial Innovation Park</p> <p>Software Park Phase III</p> <p>Electronic City International Innovation Center</p>	Digital economy	We plan to introduce enterprises specializing in 5G, industrial design, information security, digital cultural creation, smart city and industrial application, IoT, big data, cloud computing, AI, and blockchain.	<p>Management Committee of Huli District Industrial Park</p> <p>Industry and Information Technology Bureau of Huli District</p> <p>Bureau of Commerce of Huli District</p> <p>Headquarters of Jimei New Town Area</p>	<p>Shao Xinxin Tel.: +86-13860166155</p> <p>Yu Lixia Tel.: +86-592-5726297</p> <p>Wang Mingfa Tel.: +86-592-6373612</p>
19	Zhangzhou	China Merchants Zhangzhou Economic and Technological Development Zone (Xinzhi Valley)	next-generation information technology manufacturing	We plan to introduce industrial projects related to semiconductors, integrated circuits, new displays, electronic components, package tests, and new materials.	Fujian Qishi Industrial Park Operation Management Co., Ltd.	<p>Zhang Yiting Tel.: +86-592-6582665 ; +86-13799282680 E-mail: 398132728@qq.com</p>

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
20	Zhangzhou	Yunxiao Economic Development Zone (Energy-Saving Photoelectric Industrial Park)	Electronic information	We plan to introduce electronic components, power and electronic devices and systems; R&D and production projects of LED display screens and supporting materials.	Yunxiao Economic Development Zone	Lin Heng Tel.: +86-596-8515488; +86-13348484058 E-mail: yunlingkfq@163.com
21	Zhangzhou	China Merchants Zhangzhou Economic and Technological Development Zone (Xinyun Valley)	Digital economy	We plan to introduce digital economy projects such as digital services, e-commerce, IoT, big data, cloud computing, smart manufacturing, new energy, and new materials.	Fujian China Merchants Cloud Valley Development Co., Ltd.	Huang Yanru Tel.: +86-18559021092; +86-596-6852057 E-mail: huangyanru@cmhk.com
22	Zhangzhou	Jinfeng Economic Development Zone, Zhangzhou (YuTang Digital Economy Industry Park)	Electronic information	We plan to introduce next-generation information technology industries such as big data center, AI, and industrial Internet.	Zhangzhou Jinfeng Investment Promotion Service Center Co., Ltd.	Zhang Weibin Tel.: +86-596-2672619; +86-15505962306 E-mail: zzjfszcx@163.com
23	Quanzhou	Quanzhou Semiconductor High-tech Industrial Park (Integrated Circuit Industrial Base)	Integrated circuit and next-generation information technology	We plan to develop advanced memory manufacturing and high-order package test projects centering on the main industrial chain of integrated circuits while introducing upstream and downstream supporting projects and chain reinforcement/supplement projects (including projects of high-yield core parts and consumables).	Construction Preparation Working Group of Fujian Integrated Circuit Industrial Park	Chen Guoxuan Tel.: +86-15059852185 Chen Xuheng Tel.: +86-18059075249
24	Quanzhou	Quanzhou Economic and Technological Development Zone (Shiji Dingfeng Digital Industrial Park)	Digital technology	We plan to introduce manufacturing technology enterprises for OLED smart chips, epitaxial wafers and drivers in new digital displays, and mechanical foundry arms and robots in smart manufacturing.	Investment Promotion Service Center of Quanzhou Economic and Technological Development Zone	Chen Zeping Tel.: +86-595-22351128
25	Quanzhou	Photon Technology Industrial Park of Quanzhou High-tech Industrial Park (Shishi Park)	Photoelectric industry	We plan to introduce photonics industry projects and build an industrial chain dominated by optical communication, optical components and parts, optical materials, and cutting-edge optoelectronic technologies.	Management Committee of Shishi High-Tech Industrial Development Zone.	Huang Zhigang Tel.: +86-15160387807

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
26	Quanzhou	Quanzhou Semiconductor High-tech Industrial Park (Anxi Chip Park)	Photoelectric semiconductor and supporting industry chains	With a land area of 12.4 hectares for the project, we plan to introduce photoelectric semiconductor and supporting enterprises around the production, R&D, and incubation of the photoelectric industry chain to reinforce and perfect the semiconductor industry chain.	Office of Quanzhou Silicore Anxi Branch Park	Wang Yifeng Tel.: +86-13489538536
27	Quanzhou	Quanzhou Digital Economy Industrial Park (Fengze District)	Digital economy	We plan to introduce enterprises (projects) related to various digital technologies such as software and information technology, optoelectronic information, industrial Internet, intelligent robots, industrial design and digital creativity, smart city, and comprehensive health through comprehensive plant leasing and selling as well as land "bidding, auction, and market trading".	Quanzhou Software Park Construction and Development Co., Ltd.	Xu Huangxin Tel.: +86-13030996609; +86-595-24667558
28	Quanzhou	Digital Fujian (Anxi) Industrial Park	Strategic emerging industries	<p>1. Relying on a Level-T4 data center of the industrial park, we plan to introduce telecom operators, third-party service providers, and cloud computing manufacturers and cooperate with them in providing all-round services including equipment management, cloud computing, supercomputing, storage, network and related value-added services for cloud computing companies, Internet application enterprises, financial institutions, government agencies, power enterprises, and manufacturers.</p> <p>2. Relying on the advantages of China's first commercial remote sensing satellite receiving station, we plan to cooperate with relevant partners to implement the "Constellation Program" (a total of 60 satellites will be launched to form a global network), and introduce upstream (materials, electronics, and other related industries), midstream (satellite manufacturing and launch-related industries), and downstream (satellite operation and application related industries) enterprises of the aerospace industry, to build a complete outer space-sky-ground-sea integrated industrial cluster.</p> <p>3. Relying on the resources of the Anxi digital resource center of China Film Archive, we plan to build the China Film (Anxi) Film and Television Industrial Culture Park and introduce key enterprises in film and television production, publicity and distribution, post-production, technical equipment, and derivative services, to build a whole-industry-chain film and television base.</p> <p>4. The Anxi-Zhongguancun Information Valley has put into use 10,000 m² of office buildings and created the "Rainforest Space" international incubator, science and technology office areas, and other innovation exchange demonstration windows, and we plan to introduce high-quality industries and innovative projects from the Beijing-Tianjin-Hebei region and the Guangdong-Hong Kong-Macao Greater Bay Area.</p>	Digital Fujian (Anxi) Industrial Park	Xie Yanghai Tel.: +86-17758719808

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
29	Quanzhou	Quanzhou High-tech Industrial Development Zone (Jiangnan Park)	Electronic information and photoelectric industries	<p>1. For the High-tech Innovation Industrial Park, we plan to introduce supporting and associated industrial chain projects of photonics and electronic capacitors.</p> <p>2. For the High-tech Photoelectric Industrial Park, we plan to introduce enterprises in the optoelectronics industry and supporting industries.</p>	Management Committee of Licheng High-Tech Industrial Development Zone, Quanzhou	Yu Luting Tel.: +86-18659021155
30	Quanzhou	Quanzhou Taiwanese Investment Zone (Electronic Information Industrial Park)	Electronic information manufacturing	We plan to build an electronic information industrial park led by Fujian Electronics & Information (Group) Ltd. and mainly introduce upstream and downstream industrial chain enterprises specializing in network communication equipment, cloud desktop terminals, thin clients and computer peripheral equipment, navigation communication equipment, high-definition optical lenses, and other basic products of the electronic information industry.	Quanzhou Taiwanese Investment Zone Investment Promotion Group Co., Ltd.	Wang Xiaoping Tel.: +86-15060810726
31	Sanming	Datian (Fujian) Network Information Security Industrial Park	Digital economy	We plan to introduce network technology enterprises and digital information enterprises with rich experience in related fields.	Development and Reform Bureau of Datian County	Li Shengjun Tel.: +86-18750837325
32	Sanming	Mingxi County Economic Development Zone	Digital economy	We plan to introduce digital economy industrial projects such as e-commerce live streaming bases, digitalization, industrial Internet, smart manufacturing engineering, and IoT.	Development and Reform Bureau of Mingxi County	Qiu Mingming Tel.: +86-18759829909
33	Putian	Putian High-tech Industrial Development Zone	Third-generation semiconductors and new displays	<p>1. For the Third-Generation Semiconductor Industrial Park, we, relying on the talent support of the Southeast Information Technology Research Institute of Beijing Institute of Technology and the New Engineering Industry College, plan to introduce (1) Leading enterprises with industry advantages to carry out capital strategic cooperation with Unicom compound (state-owned enterprise) and Angstrom (private enterprise) and invest in projects such as third-generation semiconductor production lines; (2) Upstream enterprises like epitaxial wafer production and processing enterprises and downstream enterprises like advanced packaging enterprises.</p> <p>2. For the New Reality Industrial Park, we plan to integrate the mature land resources and workshops around Mantix and speed up efforts to map out the industries of new technologies such as color electronic paper, Mini/Micro LED, 3D display, and laser display. We plan to introduce terminal manufacturing enterprises of mobile phones, onboard monitors, and wearable devices with mature markets and strong industrial driving forces.</p>	Investment Promotion Service Center of Hanjiang District	Chen Yue Tel.: +86-594-3299653

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
34	Putian	Zhongdian Science and Technology Innovation City Project, Putian	Electronic information industry	With a planned site in Zhanglin Area, Chengxiang District and a planned land area of 44.3 hectares for the project, we plan to introduce industrial software, industrial Internet, industrial application software, and high-end system integration service providers, and digital cultural creation enterprises.	Service Center of Zhongdian Science and Technology Innovation City	Ruan Lijuan Tel.: +86-13860903035
35	Longyan	Longyan National Hi-tech Industrial Development Zone (Electronic Information Industrial Park)	Electronic information	We plan to introduce electronic information industrial projects related to semiconductors, RFID, and mobile intelligent terminals.	Bureau of Commerce of Longyan National Hi-tech Industrial Development Zone	Chen Wenyan Tel.: +86-13599615251
36	Longyan	Fujian Yongding Industrial Park (Wenxiu Small and Micro Business Incubator)	Digital contents	With a land area of 13.3 hectares and a construction area of 15 hectares for the project, we plan to introduce high-tech small and micro enterprises specializing in software R&D, cultural creation, communication network, scientific and technological R&D, and Internet game R&D centers.	Management Committee of Fujian Yongding Industrial Park	Jiang Wenhua Tel.: +86-13859532011
37	Longyan	Shanghang County Industrial Park	Production of high-density integrated circuit lead frames and LED frames	With a land area of 14.7 hectares for the project, we plan to build a high-density integrated circuit lead frame (QFN) production line with an annual capacity of 50 million frames and a planar-array LED frame production line with an annual capacity of 5 billion frames.	Gold and Copper Industrial Development Center of Shanghang County	Lai Changcai Tel.: +86-597-3138226
38	Longyan	Wuping Industrial Park	Electronic information manufacturing	<ol style="list-style-type: none"> 1. Vehicle-mounted LCD module production project: produce 5 million sets of vehicle-mounted LCD modules per year. 2. High-frequency substrate production project: produce 9 million pieces of RF substrates and 1 million m² of high-frequency copper-clad plates per year. 3. High-end intelligent display screen project: produce 30 million pieces of high-end intelligent display screens per year. 4. Large-size capacitive touch screen production project: produce 7 million pieces of large-size capacitive touch screens per year. 	Development and Reform Bureau of Wuping County	Pan Jiangbin Tel.: +86-13959077408

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
39	Longyan	Future City of Xinluo District (Digital and Intelligent Science and Technology Innovation Park)	Digital economy	We plan to introduce enterprises related to headquarters economy, big data, IoT, electronic information, and R&D and manufacturing of high-end electronic products.	Investment Promotion Bureau of Longyan Cluster	Wu Mei Tel.: +86-597-6022305
40	Ningde	Big Data Industrial Park of Ningde	Digital economy	We plan to introduce key laboratories, R&D centers, digital industry incubators, digital city science and technology innovation centers, AI industry application centers, office headquarters of Internet enterprises, server equipment maintenance service providers, and other related industrial projects.	Electronic Information Company Limited of Ningde City Communications Investment Group Co., Ltd.	Miao Linxing Tel.: +86-18605931875
41	Ningde	Pingnan County	Smart parking	For the Smart Pingnan (Phase-I) project, we plan to introduce smart parking businesses.	Pingnan County Shunda Transportation Development Co., Ltd.	Zhang Liuxin Tel.: +86-15280699558; +86-593-3330857 E-mail: pnjtj3322316t@126.com
42	Pingtán	Pingtán Emerging Industrial Park	Next-generation information technology, comprehensive health	The park covers a total area of 4.6 hectares and a total construction area of 10 hectares. We plan to introduce next-generation information technology and comprehensive health projects such as integrated circuits, AI, and the R&D and production of biomedical products. The chip packaging and testing base will involve in the testing of consumer chips, power management chips, and power chips, and establish cutting and particle selection production lines prior to the packaging process.	Pingtán Comprehensive Experimental Zone Xinxing Investment Development Co., Ltd. Emerging Industry Department of Investment Promotion Committee of Pingtán Comprehensive Experimental Zone	Lin Limin Tel.: +86-15980291666 Xie Deqin Tel.: +86-18359914700
43	Pingtán	Pingtán IPv6 Industrial Park	Digital economy	We plan to build an industrial park with IPv6 as the foundation, introduce projects such as IPv6+ industrial Internet Project, IPv6+ Leading Industry Upgrading Project, IPv6+ Network Information Security and Information Technology Innovation Project, IPv6+ Smart City Digital Project, IPv6+ Financial Industry People-benefit Project, IPv6+ Transportation Industry Upgrading Project, IPv6+ Energy Industry Upgrading Project, and IPv6+ Health Care Industry Upgrading Project, and create a joint laboratory (industry/research institute) of digital transformation industry fund and digital transformation.	Emerging Industry Department of Investment Promotion Committee of Pingtán Comprehensive Experimental Zone	Lin Xiaqiang Tel.: +86-13675040293

02

Advanced Equipment Manufacturing

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
1	Fuzhou	Minhou Qingkou Automobile Industrial Park	Automotive parts, machinery, and electronics	We plan to introduce R&D and production projects related to vehicle cover plants, machinery, and electronics.	Qingkou Automobile Industrial Park	Ye Xin Tel.: +86-13799400172
2	Fuzhou	Fuzhou Taiwanese Investment Zone	Auto parts and equipment manufacturing	1. For Fuzhou Luoyuan (Taiwanese Investment Zone) Wanyang Mass Entrepreneurial City, we plan to introduce new energy, auto parts, and assembly manufacture industries. 2. For Fuzhou Taiwanese Investment Zone Entrepreneurial Park, we plan to introduce equipment manufacturing, auto parts, new energy, and new material industries/businesses.	Fuzhou Luoyuan (Taiwanese Investment Zone) Wanyang Mass Entrepreneurial City Economic Development Bureau of the Management Committee of Fuzhou Taiwanese Investment Zone	Yang Yongyin Tel.: +86-15557589299 Guo Yuyun Tel.: +86-18259182050 Zhao Xinchui Tel.: +86-18850485202
3	Fuzhou	Fujian-Taiwan (Fuzhou) Blue Economy Industrial Park	Intelligent equipment manufacturing	We plan to introduce leading industrial projects in line with the industrial development plan of the park, such as aluminum deep processing and high-end electronic functional materials, coastal equipment manufacturing, smart manufacturing and intelligent services (new energy vehicles), and marine bio-industry.	Fujian-Taiwan (Fuzhou) Blue Economy Industrial Park	Lin Bingbing Tel.: +86-15695913397
4	Xiamen	Jimei Machinery Industry Concentration Area	New energy vehicles and smart vehicles	We plan to introduce projects related to the core and key parts of the “battery, motor, and electronic control systems” of automobiles, related supporting enterprises of King Long, intelligent connected vehicles, and key technology projects.	Bureau of Industry and Information Technology of Jimei District	Chen Jianchao Tel.: +86-15359316289
5	Xiamen	Tongxiang High-tech City Xiang'an Industrial Park	New energy automotive electronics	We plan to introduce hardware product projects such as vehicle-mounted cameras, millimeter-wave radar, laser radar, ultrasonic radar, and the electronic power steering (EPS) system.	Bureau of Industry and Information Technology of Xiang'an District	Chen Huipeng Tel.: +86-18259120495
6	Xiamen	Xiang'an International Airport Area	Aviation science and technology innovation	We plan to introduce avionics, intelligent maintenance, airport science and technology, and electronic information projects.	Headquarters of Xiamen Airport Area	Wu Miaojin Tel.: +86-15750786053

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
7	Zhangzhou	Lantian Economic Development Zone, Zhangzhou	Electronic information and advanced equipment manufacturing	<p>1. For Science and Technology Industrial Park, we plan to introduce leading industries of the economic development zone, as well as new technology, new materials, comprehensive health, digital economy, high-end equipment, and next-generation information technology projects.</p> <p>2. For High-end Mechanical Equipment Industrial Park, we plan to introduce high-end equipment manufacturing, intelligent special equipment, and high-end precision processing machinery projects.</p> <p>3. For Yingke Intelligence Valley Industrial Park, we plan to introduce upstream and downstream enterprises in smart manufacturing industry chains such as instruments and meters, mechanical equipment, and electronic information.</p> <p>4. For Industrial Internet Industrial Park, we plan to introduce electronic information, smart manufacturing projects, and others.</p> <p>5. For Yulang High-end smart manufacturing Industrial Port, we plan to introduce high-end electronic machinery and equipment smart manufacturing, smart manufacturing and AI application, electronic information and key auto parts projects.</p> <p>6. For Hengli Intelligent Industrial Park, we plan to introduce smart manufacturing industry chain projects including clocks, watches, electronics, and wearable intelligent devices.</p>	Management Committee of Lantian Economic Development Zone	<p>Cai Xuhai Tel.: +86-13605009162; +86-596-3970521 E-mail: lt2100925@163.com</p>
8	Zhangzhou	Fujian Longhai Economic Development Zone	Auto parts, electronic information, and intelligent equipment	<p>1. For New Energy Vehicle Industrial Park, we plan to introduce projects in the fields of NEV core parts, lightweight frames, and auto parts.</p> <p>2. For Digital Industrial Park, we plan to introduce projects related to carbon capture intelligent equipment, intelligent equipment, digital products, and information technology.</p>	Management Committee of Fujian Longhai Economic Development Zone	<p>Guo Yongjie Tel.: +86-18020669889; +86-596-6868108 E-mail: Lhsntw2016@163.com</p>
9	Zhangzhou	Nanjing Fujian-Taiwan Precision Machinery Industrial Park	Advanced equipment manufacturing	We plan to introduce projects like green machine tool casting, high-precision machining centers, projects of high-precision CNC machine tools, the R&D center, casting center, functional accessories center, machining center, heat treatment center, and logistics center.	Service Center of Nanjing Fujian-Taiwan Precision Machinery Industrial Park	<p>Wang Zhizhong Tel.: +86-13695992588; +86-596-7670315 E-mail: njftdzb@163.com</p>
10	Zhangzhou	China Merchants Zhangzhou Economic and Technological Development Zone (New Kinetic Energy Manufacturing Valley)	NEVs and high-end equipment manufacturing	We plan to mainly introduce projects relating to automotive electronics, CNC chassis, high-end interior trim, charging piles, hydrogen fuel cells, and other auto parts as well as related high-end equipment manufacturing projects.	Fujian Qishi Industrial Park Operation Management Co., Ltd.	<p>Zhang Yiting Tel.: +86-13799282680; +86-592-6582665 E-mail: 398132728@qq.com</p>

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
11	Zhangzhou	CECEP (Zhangzhou) Science and Technology Innovation Industrial Park of Zhangzhou Taiwanese Investment Zone	Electronic information industry and upstream and downstream supporting industries	It is focused on strategic emerging industries such as electronic information technology, high-end equipment manufacturing, and new materials.	CECEP (Zhangzhou) Science and Technology Innovation Industrial Park Co., Ltd.	Huang Zhiming Tel.: +86-13459213260; +86-596-6667502 E-mail: 349525956@qq.com
12	Zhangzhou	Zhangzhou High-tech Industrial Development Zone (smart manufacturing Industry Demonstration Park)	Smart manufacturing industry	We plan to mainly introduce projects of industrial robots and system integration, intelligent emergency equipment, intelligent packaging and logistics equipment, intelligent interactive display equipment, intelligent wearable devices, and others.	Investment Promotion Service Center of Zhangzhou High-tech Industrial Development Zone	Chen Guidong Tel.: +86-18960000367; +86-596-6635110 E-mail: gxqzsfwzx@163.com
13	Quanzhou	Quanzhou Taiwanese Investment Zone	Electronic information manufacturing, smart manufacturing, and smart grids	<p>1. For Digital Packaging Industrial Park, we plan to introduce technology-based and creative digital packaging industries, including eco-friendly upstream raw materials, digital packaging and printing machinery and equipment, and other manufacturing industries; science and technology R&D industries like the development and application of intelligent printing technology and high-definition plate-making system; platform service industries like digital packaging and printing platforms and intelligent warehousing design.</p> <p>2. For the High-end Equipment Manufacturing Industrial Park, which covers a planned land area of 33.3 hectares, we plan to mainly introduce first-generation CNC (robot) industries, including CNC machine tools, industrial robots, intelligent basic parts and components, intelligent control systems, medical apparatuses and instruments, textile machinery, plastic and rubber processing machinery, small and medium-sized machine tools and basic manufacturing equipment, printing machinery, packaging machinery, food processing machinery, pharmaceutical machinery, and other R&D and manufacturing enterprises.</p> <p>3. For Smart Grid and Electrical Appliance Industry Base, which covers a planned land area of about 13.3 hectares, we plan to introduce projects related to core chips, sensors, patrol UAVs, precision mechanical parts, breakers, GIL pipes, energy storage equipment, and smart grid monitoring systems.</p>	Quanzhou Taiwanese Investment Zone Investment Promotion Group Co., Ltd.	Wang Xiaoping Tel.: +86-15060810726

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
14	Quanzhou	Quanzhou High-tech Industrial Development Zone (Jiangnan Park)	Electronic information manufacturing	We plan to introduce electronic information industries such as energy electronics and automotive electronics; advanced manufacturing industries such as AI, medical devices, and high-end equipment; productive service such as industrial design and supporting living facilities.	Management Committee of Licheng High-Tech Industrial Development Zone, Quanzhou	Yu Luting Tel.: +86-18659021155
15	Quanzhou	Luojiang Economic Development Zone (Quanzhou Intelligent Innovation S&T City)	Smart manufacturing	We plan to introduce enterprises relating to digital economy, electronic information, precision equipment, and others.	Quanzhou Wan'an Investment and Construction Group Co., Ltd.	Wang Zhaohui Tel.: +86-13559072728
16	Quanzhou	Yongchun Meiling Smart Industrial Park	Biotechnology, food and beverages, and smart manufacturing	With a total construction area of 25 hectares for the project, we plan to build 71 standard workshops, one building of apartments, and related equipment rooms. With a focus on "digital empowerment + standardized workshop construction", we plan to introduce biotechnology, food and beverage, smart manufacturing, Internet e-commerce, and other industries.	Quanzhou Kunpeng Investment Partnership (Limited Partnership)	Cheng Lin Tel.: +86-18065590018
17	Quanzhou	Jinjiang Economic and Technological Development Zone (Yongjia Intelligent Equipment Industrial Park)	Intelligent equipment, medical and health machinery, and their upstream and downstream industries	The park covers a land area of about 5.7 hectares and has a newly-added construction area of about 14.4 hectares. We plan to introduce enterprises relating to intelligent equipment and medical and health machinery as well as the upstream and downstream supporting enterprises of their industrial chains.	Investment Promotion Office of Jinjiang Economic Development Zone	Zhang Meimei Tel.: +86-15906097272
18	Sanming	Youxi Economic Development Zone (Chengnan Industrial Concentration Zone)	Mechanical equipment and auto parts	We plan to introduce industries of EHV complete equipment, auto parts, textile machinery, and other industries with good prospects.	Management Committee of Youxi Economic Development Zone	Ji Rongrong Tel.: +86-13860513321
19	Sanming	Sanming Economic Development Zone (Quansan High-end Equipment Industrial Park)	Machinery equipment	We plan to introduce production machine manufacturing, whole production line design, manufacturing, and installation, and high-end equipment part manufacturing.	Sanming Economic Development Zone	Luo Tianlong Tel.: +86-15960960132

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
20	Sanming	Sanming Puling Automobile Industrial Park	Automobile accessories	We plan to introduce R&D and production projects of special vehicles, auto parts, and new energy vehicle materials.	Management Committee of Sanming Puling Automobile Industrial Park	Zhu Jiajian Tel.: +86-13606907671
21	Sanming	Sanming High-tech Industrial Development Zone	High-end equipment manufacturing and auto parts	We plan to introduce R&D and production projects such as high-end equipment manufacturing, intelligent equipment manufacturing, and high-end auto parts.	Management Committee of Sanming High-tech Development Zone	Chen Liuyan Tel.: +86-13960515779
22	Sanming	Jianning Economic Development Zone	Agricultural machinery and equipment manufacturing	We plan to introduce R&D and manufacturing projects of high-end intelligent agricultural machinery and equipment, and those used in hilly and mountainous areas.	The Jianning County Committee of the Chinese People's Political Consultative Conference	Liu Fangmin Tel.: +86-18259787890
23	Putian	Xianyou Economic Development Zone	Mega project tire equipment	With a planned land area of 40 hectares for the project, we plan to introduce: (1) Steel wire and rope core conveyor production lines; (2) Below-100-ton megaproject radial tire production lines; (3) 100-ton-odd giant engineering radial tire production lines; (4) High-end mining equipment production lines; (5) Radial steel wire rope core production lines.	Bureau of Industry and Information Technology of Xianyou County	Huang Qinglong Tel.: +86-13959558860
24	Putian	Ruifeng Area of Xiangang Industrial Park	Smart energy equipment manufacturing and digital trade	With a planned site for the project in Jiaowei Town, Xianyou County, which covers a land area of 33.3 hectares, we plan to build three main industrial chains for "fuel dispensers and pipelines", "intelligent sensing and monitoring equipment", and "station area service packaging", respectively, as well as two empowerment platforms, namely online "science and technology platform" and "trade platform"; introduce leading enterprises in energy equipment.	Bureau of Industry and Information Technology of Xianyou County	Zhan Bingyang Tel.: +86-18750086587
25	Putian	Putian High-tech Industrial Development Zone Coastal New City of Hanjiang District	New energy vehicles and its supporting industries	For the phase-I project, which is located in Putian High-tech Industrial Development Zone, we plan to build an NEV supporting industrial park with a land area of some 17.2 hectares around the upstream and downstream supporting facilities of YUDO Automobile; for the phase-II project, which is located in Coastal New City of Hanjiang District with a land area of some 100 hectares, we plan to build an NEV industrial park (phase II) and supporting industrial parks. We will introduce leading enterprises and listed companies specializing in NEV parts and components.	Investment Promotion Service Center of Hanjiang District	Chen Yue Tel.: +86-594-3299653

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
26	Putian	Huangshi Industrial Park, Licheng District (High-end Equipment Parts Industrial Park)	High-end equipment parts	With a planned land area of 40 hectares for the project, we, relying on the equipment parts industrial park built by Hengda New Materials (Fujian) Co., Ltd., plan to introduce upstream and downstream supporting industrial manufacturers of high-end equipment and new functional materials industries, to build a comprehensive whole-industrial-chain park of high-end equipment.	Huangshi Industrial Park, Licheng District	Chen Yufeng Tel.: +86-15260988092
27	Nanping	Jiuxian Industrial Park, Songxi County	Electromechanical manufacturing	We plan to introduce general equipment production line projects.	Investment Promotion Service Center of Songxi County	Chen Hui Tel.: +86-13348585633
28	Nanping	Shunchang County Light Industrial Park	Machinery manufacturing	We plan to introduce precision instrument assembly and mechanical equipment manufacturing projects.	Management Committee of Shunchang County Light Industrial Park	Zhang Shunxiong Tel.: +86-13860069793
29	Longyan	Longyan National Hi-tech Industrial Development Zone	NEVs and high-end mechanical equipment	1. For NEV Supporting Industrial Park, we plan to introduce NEV industrial projects such as key assembly, core parts and components, vehicle bodies and accessories, chassis, automotive electronic accessories, motors, electronic control equipment, and display screens. 2. For High-end Equipment Manufacturing Industrial Park, we plan to introduce high-end equipment industrial projects dominated by special vehicle parts and mechanical equipment parts.	Bureau of Commerce of Longyan National Hi-tech Industrial Development Zone	Chen Wenyan Tel.: +86-13599615251
30	Longyan	Sanchuang Park, Future City of Xinluo District	Smart manufacturing	We plan to introduce enterprises specializing in smart manufacturing, new materials, new energy, fund, and others.	Investment Promotion Bureau of Longyan Cluster	Wu Mei Tel.: +86-597-6022305
31	Ningde	Dongqiao Economic and Technological Development Zone	Industrial vision equipment	We plan to introduce automatic visual inspection equipment production projects.	Commerce Bureau of Dongqiao	Liu Danhua Tel.: +86-593-2317111; +86-15159333332 E-mail: 826627683@qq.com
32	Ningde	Fuding General Park for Small and Micro Businesses	Carburetor manufacturing	With a planned land area of about 3.4 hectares for the project, we plan to introduce carburetor production and R&D enterprises.	Fuding State-owned Assets Investment Management Co., Ltd.	Chen Lihong Tel.: +86-15659973323; +86-593-7862719 E-mail: fd7862719@163.com

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
33	Ningde	Fuding Shuangyue Automobile and Motorcycle Parts Industrial Park	Auto parts manufacturing	The phase-I project covers a land area of about 10.7 hectares, while the phase-II project covers some 8.7 hectares. We plan to develop industries of automobile and motorcycle accessories, tires, and others and introduce automobile and motorcycle accessories production and R&D enterprises.	Management Committee of Fuding Industrial Park	Wang Xue'er Tel.: +86-15959333336; +86-593-7871656 Email: 705198961@qq.com
34	Pingtán	Underwater Unmanned Detection Industrial Base	Manufacturing	With a planned site on the south side of Shengye Road, Luyang Cluster which covers a land area of about 1.7 hectares for the project, we plan to introduce enterprises specializing in advanced underwater robots, unmanned ships (boats), and marine exploration equipment manufacturing, as well as those related to physical exploration and remote sensing technology, to build an advanced marine equipment industrial park integrating trade, production, and R&D.	Marine Industry Department of the Investment Promotion Committee of Pingtan Comprehensive Experimental Zone	Wang Yu Tel.: +86-13514084791

03 Petrochemical Engineering

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
1	Fuzhou	Fuzhou Jiangyin Port City Economic Zone	New chemical materials	We plan to introduce and develop polyurethane, ferrotitanium pigments, nylon industry chain, and lithium battery new material industry chain.	Fuzhou Jiangyin Port City Economic Zone	Lai Yufu Tel.: +86-18950254131
2	Zhangzhou	Zhangzhou Gulei Petrochemical Base	Petrochemical engineering	We plan to introduce a 400,000 tons/year (t/y)-phenol-plus-240,000 t/y-acetone project: to newly build equipment and supporting infrastructure for the project, with a land area of about 33.3 hectares.	Bureau of Commerce of Zhangzhou Gulei Port Economic Development Zone	Chen Shaohuang Tel.: +86-18065693260; +86-596-3892018 E-mail: gltzcj@126.com
3	Quanzhou	Quangang Petrochemical Industrial Park, Fujian	Petrochemical engineering	We plan to introduce 600,000 t/y styrene, 200,000 t/y polycarbonate (non-phosgenation), 200,000 t/y adipic acid, 300,000 t/y phenol-acetone, and 150,000 t/y isobutylene/polyisobutylene projects, and develop fine chemical engineering such as electron chemistry, bulk drugs, and special gases.	Management Committee of Quangang Petrochemical Industrial Park	Wang Xueli Tel.: +86-595-27728229

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
4	Quanzhou	Quanhui Petrochemical Industrial Park, Fujian	Petrochemical engineering	We plan to introduce 600,000 t/y caprolactam and 360,000 t/y aniline production projects and develop high-performance new material, fine chemical, and chemical fiber industries.	Sinochem Quanzhou Park Development Co., Ltd.	Chen Tianwen Tel.: +86-18548932763
5	Quanzhou	Quangang Fuyuan Chemical Wharf	Liquid petrochemical wharf and warehousing	With a land area of 28.5 hectares, we plan to build storage tanks with a capacity of 517,200 m ³ ; with a sea area of about 23.6 hectares, we plan to build a petrochemical liquid chemical industrial berth with a capacity of 5,000 tons. We plan to build an important logistics hub for petrochemical raw materials on the southeast coast of Fujian Province and a main logistics and warehousing center for special petrochemical materials.	People's Government of Jieshan Town, Quangang District	Wu Junbin Tel.: +86-1775999865
6	Sanming	Qingliu New Fluorine Material Industrial Park	New fluorine materials	We plan to introduce R&D and production projects of eco-friendly refrigerants, fluorine-containing fine chemicals, fluorine-containing electronic chemicals, fluoropolymers, and others.	Management Committee of Qingliu Economic Development Zone	Zhang Liangcai Tel.: +86-13859412143
7	Sanming	Sanming Huangsha Circular Economy Industrial Park	New fluorine materials	We plan to introduce and produce high-end inorganic fluorides, new fluorine-containing refrigerants, fluoropolymer materials, fluorine-containing fine chemicals, etc.	Sanming Economic Development Zone	Luo Tianlong Tel.: +86-15960960132
8	Nanping	Jintang Industrial Park, Shaowu	New fluorine materials	We plan to introduce methane chloride and trichloroethylene/tetrachloroethylene projects and indirect supporting coal chemical (methanol), chlor-alkali chemical, and vinylidene fluoride projects; R&D and production projects of lithium battery new materials such as lithium hexafluorophosphate and lithium bis(fluorosulfonyl)imide; new product projects such as electronic chemicals and other inorganic fluorides; projects of high-end multi-functional fluororesin, fluororubber, and their processed products; projects of semiconductor-grade wet electronic chemicals, new energy electronic chemicals, high-end fluoropolymers and products, high-end chloro-fluoro alkane and their substitutes.	Shaowu Investment Promotion Service Center	Chen Xueliang Tel.: +86-18005098418
9	Nanping	Jinshan New Material Industrial Park, Shunchang County	New fluorine materials	We plan to introduce projects of new fluorine materials, new lithium battery materials, electronic chemicals, new fluorosilicone materials, and chlor-alkali as well as projects of downstream supporting industries, pharmaceutical intermediates, and new materials.	Management Committee of Shunchang County Light Industrial Park	Wang Zhipei Tel.: +86-15305081976

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
10	Longyan	Jiaoyang Industrial Park, Shanghang County	Chemical industry	<p>1. For Fluorine Chemical Industry Base, we plan to introduce and produce difluoromethane (R32), pentafluoroethane (R125), tetrafluoroethylene (TFE), polytetrafluoroethylene (PTFE), ethyl 1,1,2,2-tetrafluoroethyl ether, tetrafluoroethyl diethylamine, ethyl difluoroacetate, ethyl 4,4-difluoro-3-oxobutanoate, difluoromethylpyrazolecarboxylic acid, pyrazolidine, lithium hexafluorophosphate, and other projects.</p> <p>2. For Fine Phosphorus Chemical Industry Base, which covers a land area of about 50 hectares, we plan to introduce 5,000 t/y battery-grade lithium hexafluorophosphate, 5,000 t/y battery-grade lithium iron phosphate, 5 billion Ah/y lithium-ion power batteries, 10,000 t/y crystalline ammonium polyphosphate, 100,000 t/y ammonium polyphosphate water-soluble fertilizers, 50 million m²/y gypsum board deep processing products, 1 million m²/y gypsum blocks, and 300,000 t/y building gypsum powder projects.</p>	Bureau of Commerce of Shanghang County	Liu Zhiqiang Tel.: +86-597-3131059
11	Longyan	Zhangping New Fluorine Material Industrial Park	New fluorine materials	In Zhangping, which is rich in fluorite ores, the fluorite ore reserves discovered and being investigated are expected to be more than 10 million tons. We plan to introduce projects of fluorine fine chemicals, electronic-grade hydrofluoric acid, new electrolyte materials, upstream and downstream supporting industries, logistics, and others.	Management Committee of Zhangping Industrial Park	Li Changping Tel.: +86-13605915965

04 Modern Textile and Clothing

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
1	Quanzhou	Jinjiang New High-end Materials Industrial Base	New high-end materials	We plan to build a green fiber production base and a high-end weaving production base and introduce projects of green and eco-friendly fabrics, hygienic materials, and household textiles, in order to build a domestically-leading industrial park for new, high-end fabrics.	Jinjiang Bureau of Industry and Information Technology	Chen Weizhe Tel.: +86-13808517000
2	Quanzhou	Jinjiang Economic Development Zone	Fabrics R&D and production and clothing manufacturing	<p>1. For the 6.7-hectare Green High-end Fabric Finishing Micro-industrial Park, we plan to introduce supporting enterprises engaged in fabric research and development, the post-finishing industry, waterless printing and dyeing, and upstream and downstream industrial chains.</p> <p>2. For the 7.3-hectare Yinglin Park Garment Standard Factory Integrated Micro-industrial Park, we plan to introduce small and medium-sized clothing enterprises engaged in swimwear and fitness clothing and their upstream and downstream supporting industries.</p>	<p>Fujian Xiangxing Industrial Park Operation Management Co., Ltd.</p> <p>Management Committee of Jinjiang Economic Development Zone</p>	<p>Zhang Meimei Tel.: +86-15906097272</p> <p>Xiao Zhenfa Tel.: +86-15880840726</p>

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
3	Quanzhou	Jinjiang Sansd Footwear and Clothing Textile Park	Footwear and clothing textile industry and upstream and downstream industries	The Jinjiang Sansd Footwear and Clothing Textile Park covers an area of about 20 hectares, and we plan to introduce supporting enterprises engaged in the upstream and downstream industrial chains of the footwear and clothing textile industry.	Jinjiang Sansd Company	Zeng Shuixiang Tel.: +86-18065306019
4	Quanzhou	Shishi Smart Clothing Manufacturing Park	Intelligent clothing manufacturing, intelligent warehousing and logistics	We plan to build a modern intelligent industrial park of "textile and clothing + Internet" that meets the development needs of the big data era, aiming to turn it into a demonstration park for the digital transformation of small, medium, and micro enterprises specializing in clothing manufacturing.	Shishi Clothing Textile City Operation Co., Ltd.	Gao Mingqiao Tel.: +86-13959880010 Yu Gongyang Tel.: +86-13788989696 Jiang Shicong Tel.: +86-18144082862
5	Quanzhou	Yongchun County Industrial Park (Light Industry Manufacturing Industrial Park)	Textile and garment industry	With a total land area of 6.9 hectares, it is planned to introduce textile and garment enterprises and projects.	Yongchun Urban Construction Group Co., Ltd.	Kang Qingchuan Tel.: +86-13808538369
6	Sanming	Datian Economic Development Zone (Jingkou High-end Textile Fabric Industrial Park)	Modern textile and clothing industry	We plan to introduce textiles, clothing, luggage, and supporting industrial chains.	Datian Economic Development Zone	Chi Shangliang Tel.: +86-18759720092
7	Sanming	Youxi County	Modern textile and clothing industry	We plan to introduce 1. Leather substrate industry chain: enterprises engaged in staple fiber, nonwoven, clothing, luggage, shoemaking, and others; 2. Civilian clothing industry chain: enterprises engaged in viscose, staple fiber, and clothing; 3. Civilian (nylon) clothing industry chain: enterprises engaged in nylon slicing, weaving, and clothing.	Investment Promotion Service Center of Youxi County	Zeng Chuiding Tel.: +86-15716007607
8	Putian	Fujian Xianyou Economic Development Zone (Ciyue Area)	Self-owned brand R&D and smart manufacturing of footwear and clothing	Fujian Xianyou Economic Development Zone, with a planned area of 66.7 hectares, plans to introduce leading enterprises in the footwear and clothing industry, develop world-class brands, promote the R&D, production, and sales of self-owned brands of footwear and clothing, and build a branded footwear and clothing industrial park integrating production, supply, and marketing.	Xianyou County	Chen Ruihui Tel.: +86-18005945860

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
9	Putian	Chengtou Industrial Concentration Area, Beigao Town, Licheng District (Footwear Material Processing Concentration Area)	Footwear and clothing industry	Occupying an area of 102.7 hectares, the Industrial Concentration Area will introduce manufacturers of footwear materials, lasts, soles, insteps, and footwear machinery, expand productive services such as industrial design, shoe-making with recycled materials, modern logistics, and inspection and testing, and build a centralized processing area for footwear and clothing and a large-scale comprehensive footwear and clothing warehousing and distribution area.	Huangshi Industrial Park, Licheng District	Chen Yufeng Tel.: +86-15260988092
10	Putian	Huangshi Industrial Park, Licheng District	Footwear and clothing industry	1. For the Small and Micro Industrial Park with a planned area of 47.4 hectares, we plan to build it into a “pocket park” for the production of finished footwear and attract international first-class brand OEMs, self-owned brands, and specialized, innovative enterprises with unique and sophisticated products to establish themselves in the park. 2. The Functional Footwear and Clothing Brand and Customized Industrial Park is planned to cover an area of approximately 8.8 hectares, with an estimated capacity to build standardized workshops covering an area of about 18 hectares. We plan to introduce sub-brands of footwear and clothing such as running shoes, safety shoes, outdoor shoes, and work shoes to the park.	Huangshi Industrial Park, Licheng District	Chen Yufeng Tel.: +86-15260988092
11	Nanping	Songxi Economic Development Zone (Sanhe Industrial Park)	New light textile	We plan to introduce the production and sales of upstream and downstream supporting crafts in the textile industry.	Management Committee of Songxi Economic Development Zone	Wu Junqing Tel.: +86-18605992218
12	Longyan	Light Textile and Electronics Eco-industrial Park in Yinyan New Town, Xinluo District	High-end textile and electronic power manufacturing	We plan to introduce enterprises engaged in high-end textile materials, new materials and new energy, power equipment manufacturing, and energy storage.	Investment Promotion Bureau of Longyan Cluster	Wu Mei Tel.: +86-597-6022305

05 New Energy and New Materials

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
1	Fuzhou	Kemen Park, Lianjiang County	New chemical materials, high-end new energy materials	We plan to introduce projects for high-end new energy and new materials, new chemical materials, electric power and energy, modern port logistics, and green textile.	Investment Promotion Office of Lianjiang County	Zeng Zhaoxu Tel.: +86-13489966187
2	Fuzhou	Luoyuan Economic Development Zone	New energy vehicle materials	We plan to introduce upstream and downstream NEV material industries.	Management Committee of Luoyuan Economic Development Zone	Yao Zhonghui Tel.: +86-13705090123 Zhang Bin Tel.: +86-13599052181
3	Xiamen	Haicang District Jimei District Xiamen Torch Development Zone for High Technology Industries	New functional materials	1. We plan to introduce projects for new functional materials such as new metal functional materials, rare earth functional materials, new membrane materials, functional glass and new optical materials, semiconductor materials, new energy materials, and functional polymer materials. 2. We plan to introduce and develop projects for application materials such as environmentally friendly rubber and plastic materials with special functions and high performance, membrane materials, composite fibers, bio-based materials, graphene, and fullerene.	Xiamen Bureau of Industry and Information Technology	Liu Yuxiang Tel.: +86-592-2896743
4	Xiamen	Haicang Dongfu New Industrial Park	Manufacturing or processing of new non-ferrous metal alloy materials	We plan to introduce manufacturing or processing projects for new non-ferrous alloy materials such as cemented carbide, aluminum foil processing, and film.	Haicang District	Chen Ziyang Tel.: +86-592-6887793
5	Xiamen	Tong'an Area of Tongxiang High-tech City	New materials	We plan to introduce projects in high-tech industries such as new materials, new energy, energy conservation and environmental protection, and high-end equipment manufacturing.	Industry and Information Technology Bureau of Tong'an District	Hong Yaohui Tel.: +86-592-7558668
6	Xiamen	Professional Incubator for Graphene New Materials in Xiamen High-tech Innovation Center Graphene New Material Incubation Base of Torch High-Tech Park	Advanced carbon materials such as graphene	We plan to introduce enterprises engaged in the development, application, and industrialization of advanced carbon materials represented by graphene, and provide a space for business incubation and industrialization.	Xiamen High-tech Innovation Center	Gan Yi Tel.: +86-15280400696

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
7	Xiamen	Tongxiang High-tech City Xiang'an Industrial Park	Cutting-edge new materials	To bolster industrial chains, we plan to introduce projects for additive manufacturing materials, shape-memory alloys, self-repairing materials, intelligent bionic and metamaterials, liquid metals, new low-temperature superconducting materials, and low-cost high-temperature superconducting materials.	Bureau of Industry and Information Technology of Xiang'an District	Chen Huipeng Tel.: +86-18259120495
8	Xiamen	Xiamen Marine High-tech Industrial Park	New marine materials	We plan to introduce enterprises engaged in new anti-corrosion materials and environmentally friendly anti-fouling materials for marine applications, metal materials for marine equipment, high-performance composite materials, and self-repair materials.	Xiamen Municipal Bureau of Ocean Development	Huang Jianhong Tel.: +86-592-2853908
9	Zhangzhou	Fujian Longhai Economic Development Zone ("Zero Carbon" Industrial Park)	New energy	We plan to introduce cascade utilization of LNG cold energy projects such as carbon dioxide dry ice production, ice cube production, data center, special cold storage and cold chain logistics for food and medicine, quick-freezing and freeze-dried food processing, and frozen bakery in carbon capture power plants.	Management Committee of Fujian Longhai Economic Development Zone	Guo Yongjie Tel.: +86-18020669889; +86-596-6868108 E-mail: Lhsntw2016@163.com
10	Zhangzhou	Dongshan Economic and Technological Development Zone (Lingang Economic Industrial Park)	New energy and new materials	We will focus on introducing projects related to the extended upstream and downstream photovoltaic industry chain, including inverters, encapsulants, and frames. In addition, we will also introduce projects related to new building glass, smart furniture glass, automotive glass, household appliance glass, nanomaterials, superconductive materials, and more.	Dongshan Economic and Technological Development Zone	Lin Xiuping Tel.: +86-1365606629; +86-596-5885007 E-mail: kfqfj@163.com
11	Zhangzhou	China-Philippines Joint Demonstration Zone for Economic Innovative Development Zhao'an Area (New Materials and Supporting Industrial Park)	New materials and new energy	We plan to introduce enterprises engaged in new energy vehicles and accessories, green building materials such as photovoltaic power generation, and new composite materials.	Zhao'an Industrial Park	Xu Hongchen Tel.: +86-15750820835; +86-596-3302608 E-mail: zagyyq2021@163.com
12	Zhangzhou	Changshan Overseas Chinese Economic Development Zone (New Energy and New Materials Park)	New materials and new energy	The New Energy and New Materials Park is planned to be set up in the north of Changshan, with a net industrial land area of about 73.8 hectares. We plan to introduce enterprises engaged in new materials and new energy.	Economic Development Bureau of Changshan Overseas Chinese Economic Development Zone	Shi Baofu Tel.: +86-13605099676; +86-596-8626218 E-mail: cskfqfj@sina.com

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
13	Zhangzhou	Wan'an Industrial Park	Smart manufacturing, new energy and materials	We plan to introduce leading projects with high industrial relevance and strong driving forces; projects with high scientific and technological content and high added value; midstream and downstream overflowed projects of Gulei's petrochemical industry.	Wan'an Industrial Park, Zhangpu County	Lin Xueyan Tel.: +86-15059601490; +86-596-3106206 E-mail: 1532846819@qq.com
14	Quanzhou	Quanzhou Economic and Technological Development Zone (Automobile Industry and Trade Industrial Park)	Alternative fuel vehicles	We will focus on introducing enterprises engaging in the R&D and production of parts and components of alternative fuel vehicles and hybrid vehicles.	Investment Promotion Service Center of Quanzhou Economic and Technological Development Zone	Chen Zeping Tel.: +86-595-22351128
15	Quanzhou	Quangang Petrochemical Industrial Park	Hydrogen energy	We plan to utilize the hydrogen production advantages of by-products from petroleum and chemical enterprises in Quangang Petrochemical Industrial Park, strive to promote hydrogen purification technology and preparation, and develop industrial by-product gas-to-hydrogen projects, R&D projects in key links such as hydrogen fuel cells and key components, hydrogen fuel cell power modules and power system integration, projects in core materials such as fuel cell proton exchange membranes and carbon paper, and projects in the manufacturing of components such as membrane electrodes and metal bipolar plates.	Quangang District Development and Reform Bureau	Lin Meifeng Tel.: +86-595-87978796
16	Quanzhou	Quanzhou Taiwanese Investment Zone (New Material Industrial Park)	Graphene applications	Allocating a land area of 33.3 hectares for the Park, we plan to introduce application-oriented industries using graphene as raw materials, including enterprises specializing in four fields: supercapacitors, touch screens, structural materials, and sensors.	Quanzhou Taiwanese Investment Zone Investment Promotion Bureau Co., Ltd.	Yang Liqun Tel.: +86-13306091616
17	Sanming	Qingliu Economic Development Zone (Chengnan Small and Micro Innovation and Entrepreneurship Park)	New processing and manufacturing industry	We plan to introduce projects in manufacturing and processing industries such as electronic light, smart manufacturing, new energy, new materials, and the light textile footwear industry.	Management Committee of Qingliu Economic Development Zone	Zhang Liangcai Tel.: +86-13859412143
18	Sanming	Yong'an Graphite and Graphene Industrial Park	Microcrystalline graphite industry	We plan to introduce production lines for the industrial application of microcrystalline graphite.	Management Committee of Yong'an Graphite and Graphene Industrial Park	Huang Yuqi Tel.: +86-18250573168

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
19	Sanming	Ninghua Overseas Chinese Economic Development Zone (smart manufacturing Industrial Park)	Organic silicone products, major appliances, electronic manufacturing of optical-electronic components	We plan to introduce upstream and downstream industrial chain projects for organic silicone new materials, and manufacturing and R&D projects for refrigeration, air conditioning equipment, small electrical appliances, optical and electronic components, and electromechanical component equipment.	Management Committee of Ninghua Overseas Chinese Economic Development Zone	Lin Zhong Tel.: +86-13507553589
20	Sanming	Datian Economic Development Zone (Luofeng New Material Industrial Park)	Graphite (graphene) industry	We plan to introduce enterprises engaged in the graphite (graphene) industry, new material industry, and new energy industry, and build an industrial cluster integrating graphite purification, high-purity graphite application, and graphene research and development.	Datian Economic Development Zone	Chi Shangliang Tel.: +86-18759720092
21	Putian	Xiangang Industrial Park, Xianyou County	Silicon steel and lithium battery	<p>1. The high-end silicon steel ultra-thin belt industrial chain project is planned to be developed in Xianhua Area, Xianyou County, with a planned land area of 33.3 hectares, and we plan to attract leading enterprises in the silicon steel industry and introduce projects such as high-end silicon steel production lines, non-oriented silicon steel ultra-thin strip production lines, oriented silicon steel ultra-thin strip production lines, and silicon steel ultra-thin strip production lines.</p> <p>2. On the basis of the three major lithium battery materials industry projects introduced in 2022, we plan to attract upstream enterprises specializing in R&D and production of raw materials such as lithium battery separators, electrolytes, and composite copper foils.</p>	<p>Industry and Information Technology Bureau of Xianyou County</p> <p>Investment Promotion Office of Xianyou County</p>	<p>Huang Qinglong Tel.: +86-13959558860</p> <p>Liu Shengjiang Tel.: +86-13950728183</p>
22	Putian	Taihu Industrial Park, Chengxiang District (New Functional Material Industrial Park)	New functional material industry	The Taihu Industrial Park is planned to cover a land area of 33.3 hectares. Relying on the project, Huayuan Industry and Trade Phase II, we will focus on the R&D and application of high-performance fiber and composite materials, facilitate the development of supporting industries such as equipment manufacturing, and set up relevant incubation and scientific research platforms. We plan to attract Chinese and international textile material production enterprises with advanced technologies.	Chengxiang District	Chen Jiyang Tel.: +86-13706089318
23	Putian	Shimen'ao Industrial Park, Xiuyu District	New functional material industry	Relying on the project Sankeshu High-tech Material Comprehensive Industrial Park, we plan to mainly introduce high-performance and environment-friendly products and manufactures of water-based coatings, special coatings, and new functional coating materials to the Park.	Investment Promotion Service Center of Xiuyu District	Yang Zhi Tel.: +86-13959513242

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
24	Putian	Lingang Industrial Park, Xiuyu District (LNG Cold Energy Green Industrial Park)	New energy industry	Taking advantage of the LNG cold energy cascade resource advantages of Fujian LNG Base (the cold energy contains about 1.26 billion kWh of electricity), we plan to invest, construct, and operate the Putian Green Demonstration Industrial Park for Comprehensive Utilization of LNG Cold Energy in the plots near the Putian LNG Terminal and other plots. We will build refrigeration stations to provide cold energy for existing users in need in surrounding areas. Besides, we plan to introduce enterprises in cold energy utilization-related industries, including cold storage and cold chains in the full-temperature zone, food processing, industrial ice/dry ice, cold energy utilization R&D center, low-temperature chemical application, and other projects.	Investment Promotion Service Center of Xiuyu District	Yang Zhi Tel.: +86-13959513242
25	Longyan	Shanghang County Industrial Park (Gold-Copper New Material Recycling Industrial Park)	New materials	Shanghang County Industrial Park is focused on the construction of production bases for gold-copper alloy, composite copper films, composite aluminum films, new energy material, PCB high-end circuit boards, and related supporting industrial projects. We will strive to build it into a comprehensive park integrating the whole industrial chain of raw materials, intensive processing, surface treatment, and downstream assembly.	Gold and Copper Industrial Development Center of Shanghang County	Lai Changcai Tel.: +86-597-3138226
26	Longyan	Fujian Shanghang New Materials Science and Technology Innovation Valley	New materials	Fujian Shanghang New Materials Science and Technology Innovation Valley is planned to cover an area of 800 hectares. We will adopt a new development and construction mechanism featuring highly socialized operation, deep integration of park development with capital, and high integration of industry and city, striving to build three new material industrial chains with an output value of more than RMB 100 billion, including fluorine-containing materials, lithium battery materials, and electronic chemical materials, within 5-10 years. Besides, we plan to introduce related industrial projects.	Preparatory Office of Shanghang New Materials Science and Technology Innovation Valley	Chen Donghua Tel.: +86-13507532694
27	Longyan	Wuping Industrial Park	Production of high-power lithium-ion batteries and electrodes	We plan to introduce production and R&D projects for high-power lithium-ion batteries and electrodes and build a production base with an annual output of 50 million energy-storage lithium-ion batteries (1.5 billion Ah) and 100 million pairs of electrodes.	Development and Reform Bureau of Wuping County	Pan Jiangbin Tel.: +86-13959077408
28	Longyan	Shanghang County Industrial Park	Production of integrated circuits and LED packaging bond alloy wires	Shanghang County Industrial Park is planned to cover an area of about 2.7 hectares. We plan to introduce an automatic production line with an annual output of 6 tons of bonding alloy wires, as well as processing and production lines of high-tech materials such as bonding silver wires, bonding copper alloy wires, and industrial electronic target materials into the park.	Gold and Copper Industrial Development Center of Shanghang County	Lai Changcai Tel.: +86-597-3138226

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
29	Longyan	Fujian (Longyan) Rare Earth Industrial Park	New materials	We plan to introduce rare earth permanent magnet materials, rare earth catalytic materials, rare earth alloy materials, rare earth crystal materials, and other intensive processing and application industrial chains, as well as various downstream product projects such as air conditioning compression motors, new energy vehicle motors, rare earth micro-special motors, wind turbines, core materials of high-end medical PET-CT machines, rare earth polishing materials, rare earth automobile exhaust purifiers, and chemical catalysts for oil refining.	Changting County Rare Earth Industry Service Center	Lin Lishan Tel.: +86-13605902608
30	Longyan	Longyan High-tech Industrial Development Zone (Power Battery Industrial Park)	New energy	We plan to introduce new energy battery manufacturing enterprises and industrial projects such as battery cathode materials, conductive agents, PACK, and separators.	Bureau of Commerce of Longyan National Hi-tech Industrial Development Zone	Chen Wenyan Tel.: +86-13599615251
31	Ningde	Dongqiao Economic and Technological Development Zone	New energy materials and intelligent equipment	We plan to introduce production projects of copper foils for high-end lithium batteries, circuit copper foils, and aluminum foils for lithium-ion power batteries. Besides, we plan to introduce manufacturing enterprises for lithium battery intelligent equipment.	Commerce Bureau of Dongqiao	Liu Danhua Tel.: +86-15159333332; +86-593-2317111 E-mail: 826627683@qq.com
32	Ningde	Long'an Chemical Industry Park, Fuding	New energy materials	Long'an Chemical Industry Park covers an area of about 406.7 hectares. We plan to introduce R&D and manufacturers of new energy-supporting facilities, battery cathode materials, anode materials, electrolytes, battery slurry, special surfactants, cosmetics, high-performance adhesives, environmentally friendly water treatment agents, electronic chemicals, as well as polyurethane and special polyester polyols.	Management Committee of Fuding Industrial Park	Cai Qiwen Tel.: +86-18150220810; +86-593-7871656 Email: 705198961@qq.com
33	Ningde	Shuangyue Industrial Park, Fuding Qianqi Industrial Park, Fuding	Power battery	Shuangyue Industrial Park is planned to cover a land area of 6.7 hectares, and we plan to introduce an annual production capacity of 450 million sets of lithium battery structural parts. Qianqi Industrial Park will add a land area of 44.1 hectares, and we plan to introduce an annual production capacity of sodium-ion power batteries of more than 25 GWh.	Fuding Bureau of Industry and Information Technology	Cao Renxiao Tel.: +86-139859690690; +86-593-7853498 Email: fdjmtzg@166.com
34	Ningde	Dajia, Hetang, and Shanyang Industrial Concentration Areas, Gutian County	New energy and new stainless steel materials	We will mainly introduce lithium battery new energy industry chain projects, SAIC passenger vehicle supporting projects, stainless steel new material projects, copper material projects, and projects of other advanced manufacturing, equipment manufacturing, local specialty processing, and so on.	Bureau of Commerce of Gutian County	Li Yueqiu Tel.: +86-13599833963; +86-593-3682331 E-mail: gtxwjm@163.com

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
35	Ningde	Dongqiao Economic and Technological Development Zone (Fujian Jixin PV Storage, Charging and Inspection Cloud Data Center)	New energy and energy storage	We plan to introduce development and production projects of off-grid wind/solar/energy storage/hydrogen fuel cell interconnection systems, and projects of emerging energy technology research and development, energy storage technology services, new material technology research and development, intelligent micro-grid energy data collection, distribution, and operation management services for light storage, charging, and inspection.	Commerce Bureau of Dongqiao	Liu Danhua Tel.: +86-15159333332 ; +86-593-2317111 E-mail: 826627683@qq.com

06 Biomedicine and Health Industry

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
1	Fuzhou	Fujian Precision Medicine Industry Innovation Center	Biomedicine industry	We plan to introduce biomedicine and its upstream and downstream industrial chain projects.	Fuzhou Fuyin Precision Medicine Development Co., Ltd.	Zhou Yuyu Tel.: +86-13705937008
2	Xiamen	Xiamen Biomedical Port	Innovative drugs and high-end preparations	We plan to introduce projects of new vaccines, recombinant protein drugs, bio-macromolecular drugs, innovative small-molecular drugs, small nucleic acid drugs, targeted drugs, and improved new drugs; platforms of innovative chemical drug design, screening, and verification; platforms of new drug-loaded and complex sustained-release control technology.	Haicang District Xiamen Haicang Biotechnology Development Co., Ltd.	Ma Yiyi Tel.: +86-592-6887763 Zheng Rongwei Tel.: +86-592-6881507
3	Xiamen	Xiamen Biomedical Port Xiang'an Digital Economy Industrial Park Xiang'an General Manufacturing Plant	Medical equipment	We plan to introduce in vitro diagnostic reagents and core raw materials for immunodiagnosis, molecular diagnosis, and POCT, as well as a new generation of fully automated diagnostic equipment; various artificial organs, joints, and other high-end implant interventional products; high-end medical devices such as high-end medical imaging equipment, tumor treatment equipment, respiratory equipment, and consumables; telemedicine equipment and smart healthcare systems.	Haicang District Xiamen Haicang Biotechnology Development Co., Ltd. Bureau of Industry and Information Technology of Xiang'an District	Ma Yiyi Tel.: +86-592-6887763 Lin Zhiqin Tel.: +86-592-6881887 Chen Lixuan Tel.: +86-13950064316

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
4	Xiamen	Xiamen Biomedical Port	Cutting-edge biomedical technology and industrial services	<p>1. We plan to introduce cutting-edge biotherapy technology projects such as biomedical artificial intelligence, bioinformatics big data fusion analysis technology, cutting-edge interdisciplinary technology in life sciences, oncolytic virus therapy, tumor immunotherapy, cell therapy, and gene therapy.</p> <p>2. We plan to introduce new business formats such as drug marketing authorization holders (MAHs) and medical device registration holders.</p> <p>3. We plan to introduce third-party inspection and testing institutions such as professional medical inspection laboratories, medical imaging diagnosis centers, and pathological diagnosis centers; pharmaceutical services such as modern pharmaceutical e-commerce, chain operation, and logistics distribution; basic platforms and enterprises for industrial application such as Biomedical Contract Research Organizations (CROs), Contract Manufacture Organizations (CMOs), and Contract Development and Manufacturing Organizations (CDMOs).</p>	Haicang District Xiamen Haicang Biotechnology Development Co., Ltd.	<p>Ma Yiyi Tel.: +86-0592-6887763</p> <p>Chen Xin Tel.: +86-0592-6881507</p> <p>Zheng Rongwei Tel.: +86-0592-6881507</p> <p>Huang Ju Tel.: +86-0592-6881507</p>
5	Xiamen	Xiang'an Digital Economy Industrial Park Xiang'an General Manufacturing Plant	Innovative drugs	We plan to introduce biological drugs such as vaccines, recombinant proteins, polypeptide drugs, and antibody drugs, as well as high-end modern biotechnology projects.	Bureau of Industry and Information Technology of Xiang'an District	Chen Lixuan Tel.: +86-13950064316
6	Xiamen	Triplex International Biosciences (TIB) Park Xiamen Airport Industrial Park	Innovative drug R&D, high-end medical devices	We plan to introduce R&D projects of biological drugs and innovative drugs, as well as industrial projects such as high-end medical devices, health equipment, and health management services.	Industry and Information Technology Bureau of Tong'an District Bureau of Industry and Information Technology of Xiang'an District	<p>Lin Yuchan Tel.: +86-0592-7558669</p> <p>Chen Huipeng Tel.: +86-18259120495</p>
7	Xiamen	Tongxiang High-tech City Torch (Xiang'an) Industrial Zone Torch Huli Park	Medical equipment	We plan to introduce R&D and production projects of domestic alternative medical imaging.	Xiamen High-tech Innovation Center	Huang Kai Tel.: +86-17602188737

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
8	Xiamen	Xiang'an Digital Economy Industrial Park	Cutting-edge biotherapy technology and medical intelligent equipment	We plan to introduce cutting-edge biotherapy technology projects such as cell therapy, biomedical artificial intelligence, and immunotherapy, as well as industrial projects such as intelligent health and medical equipment, medical information services and safety, precision medicine, health services, and biomedicine.	Bureau of Industry and Information Technology of Xiang'an District Bureau of Commerce of Xiang'an District	Chen Huipeng Tel.: +86-18259120495 Chen Lixuan Tel.: +86-13950119513
9	Zhangzhou	Zhangzhou High-tech Industrial Development Zone (Big Health Industry Demonstration Park)	Biomedical industry	We plan to attract enterprises engaged in pharmaceutical manufacturing, healthy food, and health equipment.	Investment Promotion Service Center of Zhangzhou High-tech Industrial Development Zone	Chen Guidong Tel.: +86-18960000367; +86-596-6635110 E-mail: gxqzsfwzx@163.com
10	Quanzhou	Yongchun Biomedical Industrial Park	Biomedicine	With a total land area of some 26.7 hectares and a first-phase land area of 13.3 hectares, we plan to introduce incubation projects and production enterprises in the fields of medical device manufacturing, deep processing of traditional Chinese medicinal materials, health care food production, and so on.	Management Committee of Yongchun County Industrial Park	Liu Wencai Tel.: +86-18150996789
11	Quanzhou	Quanzhou Economic and Technological Development Zone (Biomedical Industry Base)	Biomedicine	With Zhengtai Road as the axis, we plan a pharmaceutical industry base with a focus on the R&D and production of chemical drugs as well as the improvement in the ability to pioneer or compete in the production of generic drugs. We also plan to foster a joint pharmaceutical marketing group and build regional pharmaceutical brands.	Investment Promotion Service Center of Quanzhou Economic and Technological Development Zone	Chen Zeping Tel.: +86-595-22351128
12	Sanming	Sanming High-tech Industrial Development Zone	Digital healthcare	We plan to introduce high-end digital medical devices, medical new materials, and other R&D and production projects.	Management Committee of Sanming High-tech Development Zone	Chen Liuyan Tel.: +86-13960515779
13	Putian	Hushi Industrial Park, Xiuyu District (Medical and Health Care Device Base)	Life and health industries	With a land area of 20-33.3 hectares, we plan to introduce enterprises specializing in high-end medical devices, medical and health care services, and marine biotechnology based on Xinchang's polypeptide park, the equipment industrial complex of Fujian Hongbao Pharmaceutical Equipment Logistics Park Co., Ltd., the logistics park of Baihe Cold Chain, the senior care project of Bai Shou Kang, and the project of Putian Bopu Medical Equipment Trading Co., Ltd.	Investment Promotion Service Center of Xiuyu District	Yang Zhi Tel.: +86-13959513242

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
14	Putian	Putian North Meizhou Bay Economic Development Zone	Life and health industries	<p>1. For the high-end medical specialty base project of Mazu Health City, a specialized hospital cluster and a medical technology sharing center have been completed with a floor area of some 17.1 hectares and a total construction area of some 50 hectares, which can meet the settlement of at least six hospitals and accommodate 2,400 beds. We plan to introduce specialized hospitals with clinical characteristics; high-end medical technology departments; cutting-edge diagnosis and treatment technology centers; hospitals, senior care and health management institutions; medical examination and testing institutions; high-level medical specialty teams.</p> <p>2. With a total planned area of 500 hectares for the biomedicine and medical device production base project of the Cross-Strait Biological Technology Park, we plan to introduce natural drug, APIs, and preparation production and sales projects; medical device production, management, and sales industrial projects; health care product and formulated food for special medical use, cosmetics, and beauty equipment processing, production, and trade; pharmaceutical equipment exhibition and sales center.</p>	North Bank Management Committee	<p>Chen Zhihong Tel.: +86-18705941699</p> <p>Xu Jianxing Tel.: +86-13859813603</p>
15	Nanping	Jintang Industrial Park, Shaowu	Biomedical industry	We plan to introduce listed companies for the processing of finished drugs and preparations and new production projects of APIs, finished drugs, and preparations, to form an industry-wide chain covering raw materials, intermediates, APIs, preparations, and sales. We also aim to introduce and develop fluorine-containing drugs, first generics, and drugs in short supply in the market.	Shaowu Investment Promotion Service Center	Chen Xueliang Tel.: +86-18005098418
16	Nanping	Pucheng County Industrial Park (Putan Biological Industrial Park)	Biology and new pharmacology	<p>1. Relying on the existing biological fermentation facilities and production capacity of Putan Biomedical Park, we plan to introduce application enterprises engaging in biological fermentation, biological extraction, and others.</p> <p>2. Relying on the chemical industrial concentration area, we plan to introduce enterprises engaging in pharmaceutical APIs, intermediates, preparations, and chemical innovative drugs.</p>	Bureau of Commerce of Pucheng County	Huang Liubin Tel.: +86-18965399393
17	Longyan	Longyan National Hi-tech Industrial Development Zone (New Pharmaceutical Industrial Park)	Biomedicine	We plan to introduce new pharmaceutical industrial projects focused on biomedicine and high-end medical devices.	Bureau of Commerce of Longyan National Hi-tech Industrial Development Zone	Chen Wenyan Tel.: +86-13599615251

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
18	Longyan	Minxi (Changting) Medical Device Industry Park	Medical equipment	We plan to introduce high-end medical device production projects.	Medical Device Industry Office of Changting County	Qiu Weiliang Tel.: +86-13338371020
19	Ningde	Dongqiao Economic and Technological Development Zone (Biomedical Science Park)	Biomedicine	We plan to introduce drug R&D, innovation, and manufacturing, intelligent extraction, preparation production, process control, and examination and testing systems.	Commerce Bureau of Dongqiao	Liu Danhua Tel.: +86-15159333332; +86-593-2317111 E-mail: 826627683@qq.com
20	Ningde	Zherong Economic Development Zone (Biomedicine Recycling Economy Industrial Park)	Biomedicine	We plan to introduce production projects related to biomedicine, healthcare food, and the recycling industry.	Management Committee of Zherong Economic Development Zone	You Wangbin Tel.: +86-13599192968; +86-593-8351209 Email: 392438867@qq.com
21	Ningde	Zherong High-tech Industrial Park (East Fujian Pharmaceutical City)	Biomedicine	We plan to build medical standard workshops with a land area of 13.3 hectares; introduce R&D and production projects for chemical drugs, Chinese patent drugs, medical devices, and healthcare food.	Management Committee of Zherong High-tech Industrial Park	You Wangbin Tel.: +86-13599192968; +86-593-8351209 Email: 392438867@qq.com
22	Pingtang	Pingtang Comprehensive Experimental Zone	Marine biotechnology high-tech industry	With a planned land area of some 13.3 hectares, we plan to build 16 hectares of production workshops and build an international leading R&D and innovation center according to GMP standards; delve into the application of stem cells in the cosmetics industry; build automatic unattended finished product warehouses and world-class raw material production workshops.	Marine Industry Department of the Investment Promotion Committee of Pingtang Comprehensive Experimental Zone	Zeng Huafeng Tel.: +86-13023827450
23	Pingtang	Pingtang Strait Medical and Health Industrial Park	Biomedicine	Investment attraction for park carriers. For the project, 10.5 hectares standardized workshops, warehouses, and trading centers have been built. We plan to introduce enterprises engaging in biomedical R&D, production, and sales, and carry out such business as the import-export trade of drugs, medical devices, and cosmetics, headquarters logistics, bonded R&D, and bonded processing.	Department of Logistics Trade, Investment Promotion Committee, Pingtang Comprehensive Experimental Zone	Chen Xiaoqing Tel.: +86-15980210826

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
24	Pingtán	Haixi Entry-Exit Animal and Plant Quarantine and Treatment Center, Pingtan Comprehensive Experimental Zone	Biomedicine and related technical services	Investment attraction for park carriers. The project has been completed. Located in the Jinjing area, it covers an area of 13.3 hectares and a total construction area of 7.4 hectares, including a quarantine and treatment area, a detection and R&D center, an animal quarantine area, a plant quarantine area, and supporting facilities. We plan to 1. introduce biomedical enterprises, and 2. build a drug safety evaluation center (experimental animal center) and introduce third-party technical service platforms for experimental animal disease models, non-clinical safety research on drugs and medical devices, inspection and detection, new drug screening and evaluation, and other research.	Department of Logistics Trade, Investment Promotion Committee, Pingtan Comprehensive Experimental Zone	Nian Dan Tel.: +86-18250188893 Chen Xiaoqing Tel.: +86-15980210826
25	Pingtán	Pingtán Comprehensive Experimental Zone	Comprehensive utilization of marine waste	With a planned land area of 2-3.3 hectares, we plan to build a biotechnology R&D center and a production line with a capacity of 300,000 tons per year; extract—through the special technique—the active substances of marine waste such as oyster shells, sea snail shells, conch shells, and abalone shells and apply them to medicine, beauty, and other fields.	Department of Comprehensive Industry, Investment Promotion Committee, Pingtan Comprehensive Experimental Zone	Miao Jianhao Tel.: +86-15859336989

07 Metallurgical Building Materials

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
1	Fuzhou	Green Building Industrial Park of Minqing County	Prefabricated buildings and new building materials	At present, there are 113.3 hectares of land available for investment promotion. Focusing on emerging and leading green industries, we plan to introduce new building materials, prefabricated buildings, and other upstream and downstream industries to promote the contiguous development of industrial parks.	People's Government of Yunlong Township, Minqing County	Liu Xi Tel.: +86-15980727926
2	Fuzhou	Handiwork Industrial Park of Hongwei Township	Handiwork manufacturing	We plan to introduce handicraft enterprises that are environmentally friendly and pose no security risks.	Minhou County Construction Investment Group Co., Ltd.	Lin Jiajia Tel.: +86-15960020995
3	Zhangzhou	Fujian Pinghe Industrial Park (Ecological Wood Industry Park)	Smart household supplies manufacturing	We plan to introduce supporting projects in the wood industry, including panel veneering, wood-based panel-type furniture, household building materials, and related projects.	Fujian Pinghe Industrial Park	Zhuang Xianwei Tel.: +86-15060516182; +86-596-5297188 E-mail: phgyyq@163.com

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
4	Quanzhou	Fujian Yongchun Industrial Park (Pilot Park for Standardized Construction)	Ceramic furniture industry	We plan to introduce the intelligent ceramic furniture industry, as well as new ceramic materials, smart home supplies, and the upstream and downstream of the industrial chain.	Management Committee of Yongchun County Industrial Park	Liu Wencai Tel.: +86-18150996789
5	Quanzhou	Fujian Haixi Renewable Resources Industrial Zone	Utilization of renewable resources	The phase-I project covers an area of 12.4 hectares, which comprises a main construction area of 23.8 hectares and 36 workshops. Plans have been made to introduce waste plastic and rubber recycling and reprocessing enterprises, and rubber and melamine product-manufacturing enterprises as well as dismantling enterprises engaging in the dismantling of scrapped hardware, electronic appliances, house plumping and heating system, kitchen, bathroom, and end-of-life vehicles. The phase-II project covers a land area of 6.7 hectares; we plan to build 5 hectares of workshops and introduce non-ferrous metal casting- and smelting-related enterprises.	Fujian Haixi Renewable Resources Industrial Zone	Xiu Jinrong Tel.: +86-13959951211
6	Quanzhou	Quanzhou Construction Service Industrial Park	Construction and building material R&D	In the form of leasing or purchasing office buildings, we plan to build gathering and development platforms for enterprises and professional technical personnel in the construction industry and introduce upstream and downstream enterprises in the traditional construction industry as well as enterprises (projects) specializing in green buildings, prefabricated buildings, building material R&D, building informatization, and others related to new types of business in the form of leasing or purchasing office buildings.	Housing and Construction Bureau of Fengze District	Cai Yaya Tel.: +86-13960445566; +86-595-22575628
7	Quanzhou	Nan'an Hengrun High-tech Bathroom Supply Industrial Park	Water heating and bathroom supplies	We plan to introduce projects and enterprises related to water heating facilities and bathroom supplies (pressure casting, injection molding, casting, hot extrusion, CNC machine tools, machining, flexible tubes, elbow pipe assembly, etc.), fire protection valves, hardware processing, smart home supplies, packaging, e-commerce, and others.	Quanzhou Boyu Investment Co., Ltd.	Zhang Xiaoping Tel.: +86-15259537600
8	Quanzhou	Nan'an Winnkol Gaoding Digital Industrial Park	Upstream and downstream industries of bathroom cabinets	We plan to introduce upstream and downstream suppliers of bathroom cabinet parts such as washbasins, main cabinets, shelves, side cabinets, bathroom countertops, taps, mirrors, mirror cabinets, hardware accessories, and other products.	Jomoo Smart Industrial Park	Zhuang Xiaoyong Tel.: +86-15980416900
9	Quanzhou	Nan'an Wanyang Smart Kitchen and Bathroom Supply Industrial Park	Intelligent kitchen and bathroom supplies and supporting industries	We plan to introduce enterprises in the bathroom supply industry and supporting industries.	Nan'an Wanyang Mass Innovation Technology Co., Ltd.	Xu Jiahua Tel.: +86-13666906755

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
10	Sanming	Bamboo and wood processing concentration area of Youxi County	Industry of processed products	We plan to introduce 50 bamboo and wood deep processing enterprises.	Forestry Bureau of Youxi County	Huang Gan Tel.: +86-13960001997
11	Sanming	Fujian Jiangle Economic Development Zone	Non-metallic mining industry	We plan to introduce mineral product (calcite) production projects, including a nanomaterials products production project with an annual capacity of 200,000 tons, a modified coarse whitening masterbatch production project, a calcite deep processing and ultra-fine coarse whitening powder functional new material production project, and so on.	Management Committee of Fujian Jiangle Economic Development Zone	Pan Jingyu Tel.: +86-13859428896
12	Putian	Putian Meizhou Bay North Bank Economic Development Zone (Luoyu Island Circular Economy Industrial Park), Fujian Province	Green economy	We plan to mainly introduce domestic leading enterprises in ecological environment governance, and the construction projects include (1) a recycling center for post-dredging sediment, waste rock materials, and construction waste, with an annual treatment capacity for solid waste and mud of 200,000 and 500,000 tons respectively; (2) a recycling center for waste oyster shells, with an annual treatment capacity of 20,000 tons; (3) a recycling center for iron tailings at Luoyu Port to recycle the iron tailings generated after the mineral processing of the project, with an annual treatment capacity of 5 million tons.	North Bank Management Committee	Tang Zhaohui Tel.: +86-13599022908
13	Longyan	Liancheng Industrial Park	New building material manufacturing	We plan to introduce state-owned enterprises in the field of new building materials and production projects related to lightweight boards, composite boards, and other new wall materials.	Management Committee of Liancheng Industrial Park	Yao Jianming Tel.: +86-13459710548
14	Nanping	Shunchang Industrial Park	New building materials and furniture	We plan to introduce projects related to machinery manufacturing, design, and R&D as well as metallurgy building materials (metal calendaring); introduce supporting industrial projects such as wood-based panel-type furniture, solid wood furniture, packaging, and accessories.	Management Committee of Shunchang Industrial Park	Zhang Shunxiong Tel.: +86-13860069793

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
15	Nanping	Shaowu Economic Development Zone	Forestry industrial product processing industry	We plan to introduce the R&D and production enterprises of special intelligent equipment for bamboo workers and woodworkers, deep-processing and manufacturing enterprises of bamboo furniture and household products, deep-processing enterprises of disposable bamboo food containers and others that consume local pine wood and boards, and production and manufacturing enterprises of outdoor bamboo (anti-corrosion bamboo) houses and laminated wood.	Shaowu Investment Promotion Service Center	Chen Xueliang Tel.: +86-18005098418
16	Nanping	Zhenghe Economic Development Zone	Bamboo manufacturing industry	We plan to cultivate bamboo product processing high-tech whole-industry-chain enterprises and build bamboo product R&D, processing, logistics, and exhibition and sales centers.	Management Committee of Zhenghe Economic Development Zone	Chen Ming Tel.: +86-15280797912
17	Nanping	China Bamboo Craft City, Zhenghe County	Bamboo manufacturing, logistics, and services	We plan to build bamboo design and collection & distribution centers in the core area of Zhenghe New City, with a land area of 6.7 hectares and a total construction area of 12.8 hectares. Facilities in this area include one complex building and three intelligent logistics warehouses.	Zhenghe County State-owned Assets Investment and Operation Group	Luo Jiawang Tel.: +86-19859934211
18	Longyan	Zhangping Industrial Park (Longgang Industrial Park)	Steel and building materials	1. Cold-rolled sheet and high-end green coated sheet project: Use Fujian Longgang's hot-rolled coiled sheets and introduce the downstream sheet industry chain system. 2. The production and manufacturing base project of the green prefabricated construction industry is planned to cover a land area of 66.7 hectares, including four industrial zones for structural materials, wall materials, decorative materials, and pipeline materials, respectively, and related production projects will also be introduced.	Industrial Informatization and Science and Technology Bureau of Zhangping Commerce Bureau of Zhangping	Li Yangqi Tel.: +86-13605927008 Hong Zhihua Tel.: +86-13605908013
19	Longyan	Fujian Yongding Industrial Park ("Yongdinghong" Stone Recycling Economy Industrial Park)	Stone materials	With a planned area of 200 hectares, the project is divided into three phases. We plan to create four areas, namely the mining area, processing area, stone culture exhibition area, and administrative comprehensive service area, to introduce enterprises engaged in high-end stone slabs, profiled bar processing, stone trade, sewage treatment, stone powder deep processing, and others.	Management Committee of Fujian Yongding Industrial Park	Jiang Wenhua Tel.: +86-13859532011

08 Modern Agriculture and Food Processing

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
1	Fuzhou	Yuanhong Functional Zone, Fuzhou New Area	Food industrial projects	We plan to introduce leading projects of the food industry chain.	Yuanhong Functional Zone, Fuzhou New Area	Wang Chijie Tel.: +86-15059131577
2	Fuzhou	Minhou Economic Development Zone (Food Industrial Park)	Green food, pre-made food, and baking and production	We plan to introduce R&D and production projects in the food industry such as green food, pre-made food, and baking and production.	People's Government of Jingxi Town	Zheng Youfei Tel.: +86-15959112051
3	Zhangzhou	Zhaoyin Port Area, China-Philippines Joint Demonstration Zone for Economic Innovative Development	Equipment manufacturing, food processing, modern logistics industry, culture and tourism and health, and digital trade	For the China-Philippines new energy equipment cooperation base and ASEAN food trade and processing base with a planned area of 7.88 km ² , we plan to introduce enterprises in the fields of new energy equipment, food processing, and modern logistics industry, and foster China-Philippines joint projects in cultural tourism and health, digital trade, and other service trade industries.	Investment Promotion Bureau of Zhangzhou China Merchants Economic & Technological Development Zone	Liu Wei Tel.: +86-13960096999 E-mail: liuwei@cmhk.com
4	Zhangzhou	China-Philippines Joint Demonstration Zone for Economic Innovative Development Dongshan Area (Marine Biotechnology Industrial Park)	Processing of aquatic products	We plan to mainly introduce projects relating to the intensive processing of aquatic products, biopharmaceuticals, and high-value-added mariculture.	Administrative Committee of Dongshan Economic and Technological Development Zone	Lin Xiuping Tel.: +86-1365606629; +86-596-5885007 E-mail: kfqjff@163.com
5	Zhangzhou	China-Philippines Joint Demonstration Zone for Economic Innovative Development Zhao'an Area (Park for Live Poultry and Livestock Importing and Processing of Whole Poultry and Livestock)	Import of live poultry and livestock and processing of whole poultry and livestock	We plan to introduce enterprises engaged in slaughtering, processing, packaging, storage, logistics, and transportation of imported live cattle (sheep).	Zhao'an Industrial Park	Xu Hongchen Tel.: +86-15750820835; +86-596-3302608 E-mail: zagyyq2021@163.com

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
6	Zhangzhou	Nanjing High-tech Industrial Zone	Food, electronic information, new energy, and new materials	We plan to introduce various industrial projects relating to electronic information, food processing, auto parts, precision hardware, mold manufacturing, and polymer lithium batteries.	Management Committee of Nanjing High-tech Industrial Zone	Su Shengzhou Tel.: +86-13607571005; +86-596-7665628 E-mail: gxq7665628@163.com
7	Zhangzhou	Zhangzhou Lantian Economic Development Zone (High-end Food Industrial Park)	Food and beverages	We plan to mainly introduce leading food and beverage enterprises with great growth potential and promising market prospects.	Management Committee of Lantian Economic Development Zone	Cai Xuhai Tel.: +86-13605009162; +86-596-3970521 E-mail: lt2100925@163.com
8	Zhangzhou	Fujian Longhai Economic Development Zone ("Zero Carbon" Industrial Park)	Processing of food and agricultural and sideline products	We plan to introduce (1) Intensive processing projects of agricultural, animal husbandry, and fishing resources such as marine active substances, plant protein, and fermented protein, along with R&D and production projects of functional foods like dietary nutritional supplements and special formula foods, and (2) Industrial projects like single-cell aquatic feed protein production with natural gas, freeze-dried pet food making, baked pet food production, and pet nutritional supplements.	Management Committee of Fujian Longhai Economic Development Zone	Guo Yongjie Tel.: +86-18020669889; +86-596-6868108 E-mail: Lhsntw2016@163.com
9	Quanzhou	Hui'an County	Deep-sea aquaculture	We plan to lease a semi-submersible culture platform that provides 60,000 m ³ of aquaculture water. With automatic feeding equipment, mechanized fishing equipment, and netting cleaning equipment, as well as cultured fishes and environment monitoring equipment, the platform realizes intelligent deep-sea aquaculture. Moreover, the platform can function as a management base to influence fishing grounds. Additionally, it can provide function space such as sea view guest rooms, offices, conference rooms, and intelligent fishery centers, making it an ideal place for marine science popularization, marine leisure sightseeing, fishing, catering, and other activities.	Hui'an Culture and Tourism Group Co., Ltd.	Chen Yanying Tel.: +86-15260327391
10	Sanming	Jianning Economic Development Zone, Fujian	Food processing industry	With a planned land area of 13.3 hectares, we plan to introduce companies specializing in deep processing of agricultural products, cold chain logistics, industrial tourism, and brand planning and marketing.	People's Government of Xikou Town, Jianning County	Chen Zhibin Tel.: +86-15359930615
11	Sanming	Taining County	Deep processing of <i>Dendrobium officinale</i>	We plan to introduce deep processing projects for <i>Dendrobium officinale</i> , as well as projects focused on cultivating <i>Dendrobium officinale</i> on cliffs and other related industrial support projects.	Investment Promotion Service Center of Taining County	Xiao Xiaodong Tel.: +86-13559092644

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
12	Sanming	Qingliu County	Ecological layer industry	We plan to build a standardized breeding base for ecological laying hens and production lines for poultry slaughtering and processing and feed processing.	Qingliu Bureau of Agriculture and Rural Affairs	Hou Weiqiang Tel.: +86-13306083583
13	Sanming	Qingliu County	Ecological breeding and processing of river and stream fish	We plan to build an industrial park for river and stream fish integrating the ecological aquaculture base, aquatic product processing base, and modern fishery leisure and sightseeing base.	Qingliu Bureau of Agriculture and Rural Affairs	Hou Weiqiang Tel.: +86-13306083583
14	Sanming	Youxi County	Agricultural and sideline food processing industry	We plan to foster (1) Meat slaughtering and processing projects, including pig slaughtering, chilled meat segmentation, meat processing equipment, and cold storage facility construction, and (2) Intensive edible fungus processing projects, including polysaccharide extraction from edible fungi, by-product processing equipment, and edible fungus production equipment.	Youxi Bureau of Agriculture and Rural Affairs	Chen Gaoshan Tel.: +86-13850863692
15	Putian	Food Industrial Park of Binhai New Area, Hanjiang District	Food industry	We plan to introduce enterprises specializing in intensive processing of green leisure food, as well as processing enterprises of beer and beverages, frozen aquatic products, and canned products.	Bureau of Industry and Information Technology of Hanjiang District	Zheng Lei Tel.: +86-13959221651
16	Putian	Hushi Industrial Park (Abalone Science and Technology Industrial Park)	Food industry	With a planned land area of 13.3 hectares for project introduction, we will focus on the intensive processing of abalones to cultivate new business forms such as the intensive processing of algae, shellfish, oysters, kelp, and low-value fish and shrimps as well as pre-made seafood, introduce projects for leisure, tourism, ready-to-eat, and small-package aquatic products processing, and mainly develop ready-to-cook, ready-to-heat, and ready-to-eat pre-made food products. We also plan to introduce domestic enterprises specializing in ready-to-cook food processing.	Investment Promotion Service Center of Xiuyu District	Yang Zhi Tel.: +86-13959513242
17	Putian	Nanri Island	National-level Demonstration Base for Deep-sea Aquaculture	With a planned site on Nanri Island in Putian, we plan to build a national-level demonstration base for deep-sea aquaculture by introducing top companies specializing in deep-sea aquaculture equipment.	Putian Bureau of Ocean and Fisheries	Yao Dahong Tel.: +86-18159001037

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
18	Nanping	Wuyishan Ecological Entrepreneurship Park	Tea-based tourism and food processing	We plan to introduce projects relating to the tea-based tourism industry, green food, and healthy food.	Management Committee of Wuyishan Ecological Entrepreneurship Park	Yang Wenfu Tel.: +86-13950678627
19	Nanping	Shunchang Industrial Park	Food processing, photoelectric machinery, and bamboo and wood products	1. For the centralized incubation park for small and micro enterprises, we plan to introduce projects of food processing, machinery and equipment manufacturing, and others. 2. For Zhengfang Optoelectronic Park, we plan to introduce projects of deep food processing, bamboo and wood products, and photoelectric machinery manufacturing and installation.	Management Committee of Shunchang County Light Industrial Park	Zhang Shunxiong Tel.: +86-1386006793
20	Nanping	Yanping District	Full industrial chain of digital dairy industry	We plan to introduce R&D and production projects for industries including dairy farming, dairy processing, forage planting and processing, and digital animal husbandry information platform construction.	Bureau of Agriculture and Rural Affairs of Yanping District, Nanping	Luo Jun Tel.: +86-15605996732
21	Nanping	Xingcun Town, Wuyishan	Modern agriculture	We plan to introduce new business forms, such as ecological agriculture, e-commerce agriculture, digital agriculture, and intelligent agriculture for two parks in Wuyishan, Nanping Fujian Province, namely the Xiandian Eco-industrial Park (Wuyishan Ruifang Rock Tea Factory) and Tea Processing Park in Xingcun Town (Wuyishan Hanchun Ecological Tea Garden).	People's Government of Xingcun Town, Wuyishan	Zhan Bin Tel.: +86-18159954699
22	Nanping	Xiaosong Town, Jian'ou	Tomato Industrial Park	We plan to introduce an intelligent tomato industry chain project covering research, production, and sales.	People's Government of Xiaosong Town, Jian'ou	Wu Yuhuang Tel.: +86-13365099308
23	Longyan	Liancheng County	Standardized white duck breeding base	We plan to introduce large-scale breeding enterprises and white duck deep-processed product development and production projects and build a standardized white duck breeding farm (or breeding community), a white duck slaughterhouse, and a product deep processing plant.	Liancheng Bureau of Agriculture and Rural Affairs	Fu Binghua Tel.: +86-13507520225
24	Longyan	Zhangping Modern Agricultural Industrial Park	Supporting cold chain logistics and deep processing	We plan to build an industrial park for cold chain and warehousing of agricultural products, deep processing of products, and supply chain as a supporting project of Zhangping Modern Agricultural Industrial Park. The building area is 50 hectares.	Zhangping Project Construction and Development Center	Jiang Zhi Tel.: +86-13507501096

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
25	Ningde	Fu'an Saiqi Park for Small and Micro Businesses	E-commerce	We plan to allocate an area of about 16 hectares for the introduction of projects for food production, warehousing, logistics (cold chain), and others.	People's Government of Saiqi Town	Lin Wei Tel.: +86-18750318336; +86-593-6961268 E-mail: 936131187@qq.com
26	Ningde	Fuding Food Valley Industrial Park	Food processing	With a planned land area of about 54 hectares, we plan to introduce enterprises specializing in food R&D, processing, and production.	Fuding State-owned Assets Investment Management Co., Ltd.	Chen Lihong Tel.: +86-15659973323; +86-593-7862719 E-mail: fd7862719@163.com
27	Ningde	Demonstration Area for Modern Agriculture of Zhouning County	Planting industry	With a planned area of 333.3 hectares, we plan to introduce competitive agricultural market entities and mainly create five 66.7 hectares demonstration areas for tea, flowers, kiwifruits, grapes, and potatoes, respectively.	Investment Promotion Center of Zhouning County	Li Luwei Tel.: +86-18805033672
28	Ningde	Zherong County	Alpine tea industry	We plan to introduce projects for the construction of warehousing and logistics and the alpine tea industrial park.	Tea Industry Development Center of Zherong County	Chen Xi Tel.: +86-13706026087; +86-593-2270037 E-mail: 2301089832@qq.com
29	Ningde	Diantou Town, Fuding	Tea culture and tea-based tourism	We plan to construct 3-5 research center buildings totaling 4.2 hectares to study the health-care benefits of white tea, the fermentation quality of white tea, tea culture, and the deep processing techniques of white tea and to develop derivative products.	Development and Reform Bureau of Fuding	Guo Chuanxi Tel.: +86-13599810036; +86-593-7811736 E-mail: fdjw66@163.com
30	Pingtang	Pingtang Comprehensive Experimental Zone	Comprehensive Base for the Whole Industry of "Pingtang Abalone"	With a planned land area of 6.7 hectares we plan to build production, processing, refrigeration, and R&D infrastructure, complex buildings, and experience centers. We will innovatively establish an industrialized operation and cooperation mechanism integrating companies, base, and farmers and build a whole industrial chain for "Pingtang abalone" that covers abalone aquaculture, production, processing, refrigeration, feed, sales, e-commerce, live streaming, and R&D.	Pingtang Comprehensive Experimental Zone Xinxing Investment Development Co., Ltd.	Zeng Huafeng Tel.: +86-15806029079
31	Pingtang	Pingtang Comprehensive Experimental Zone	Intensive processing of seafood	With a planned land area of 4 hectares, we will build an intensive processing industrial park for diversified marine products by capitalizing on Pingtang's established strengths in the marine fishery and aquaculture and introducing processing and production lines for fish, shrimp, crabs, shellfish, and algae.	Marine Industry Department of the Investment Promotion Committee of Pingtang Comprehensive Experimental Zone	Zeng Huafeng Tel.: +86-15806029079

09 Trade Logistics and Platform Economy

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
1	Fuzhou	Jin'an Lake Sanchuang Park	Urban industry, and platform economy	We plan to introduce innovative comprehensive services, innovative offices, headquarters economy, operation and maintenance centers, settlement centers, and other business forms.	Fuzhou Industrial Park Development Group	Hu Qingxin Tel.: +86-13960702220
2	Fuzhou	Fuqing Automobile Corridor	Automobile service industry	We plan to introduce automobile trading and aftermarket service enterprises, including automobile 4S stores, delivery centers, auto maintenance and detailing services, parts suppliers, leasing companies, supply chains, and those specializing in automobile import/export and cultural tourism.	Development Action Headquarters of Fuqing Automobile Corridor	Chen Jiamin Tel.: +86-17850884609
3	Fuzhou	Fuqing E-commerce Industrial Park	E-commerce logistics	We plan to introduce Chinese and cross-border e-commerce enterprises, and third-party service companies to provide corresponding services for e-commerce enterprises.	Fujian Kunda High-tech Investment Development Co., Ltd.	Xue Yuhang Tel.: +86-15960124676
4	Fuzhou	Xiangfu Intelligent Logistics Data Industrial Park	Textile trade and e-commerce logistics	We plan to introduce enterprises specializing in warehousing (cold chain, e-commerce, and bonded business), logistics, express delivery, and textile trade to set up operations in the park.	Fujian Xiangfu Logistics Shareholding Co., Ltd.	Li Ting Tel.: +86-15005094002
5	Fuzhou	Yuanhong Functional Zone, Fuzhou New Area	Cross-border e-commerce enterprises	We plan to introduce Chinese and cross-border e-commerce trade enterprises.	Yuanhong Functional Area	Wang Chijie Tel.: +86-15059131577
6	Xiamen	Qianchang Logistics Park	Regional headquarters projects of logistics	We will establish an industrial development platform integrating procurement trade, logistics allocation, financial settlement of supply chains, and regional operation and management headquarters. We plan to introduce high-quality logistics enterprises and develop procurement trade, logistics allocation, supply chain finance, and regional operation headquarters.	Maluanwan New Town Headquarters Construction and Transportation Bureau of Jimei District	Jiang Kun Tel.: +86-18675937738 Guo Xilong Tel.: +86-1880228668
7	Xiamen	Huli District	Cruise supply base project	We plan to introduce and integrate cruise supply enterprises to undertake cruise (including external ships) supply business.	Xiamen Port Authority	Jiang Bizan Tel.: +86-13515972579; +86-592-2658607

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
8	Zhangzhou	Jinfeng Economic Development Zone, Zhangzhou (New Economic Industrial Park)	New economy industry	We plan to introduce enterprises specializing in the digital economy, headquarters economy, platform economy, green economy, and other new business forms.	Zhangzhou Jinfeng Investment Promotion Service Center Co., Ltd.	Zhang Weibin Tel.: +86-15505962306; +86-596-2672619 E-mail: zjzfszx@163.com
9	Zhangzhou	Lantian Economic Development Zone, Zhangzhou (Cross-border E-commerce Industrial Park)	E-commerce	We plan to mainly introduce e-commerce enterprises and platforms.	Management Committee of Lantian Economic Development Zone	Cai Xuhai Tel.: +86-13605009162; +86-596-3970521 E-mail: lt2100925@163.com
10	Zhangzhou	Dongshan Economic and Technological Development Zone	Service sector	We plan to mainly introduce modern logistics trade and cold chain logistics.	Bureau of Commerce of Dongshan County	Cai Fangda Tel.: +86-13960102589; +86-596-5835104 E-mail: dswjnj@126.com
11	Zhangzhou	Changshan Overseas Chinese Economic Development Zone (Cross-border E-commerce Logistics Park)	Logistics industry	The park, situated in the northern part of Changshan, offers 143 hectares of industrial land, for which we plan to attract logistics businesses to establish their presence in the area.	Economic Development Bureau of Changshan Overseas Chinese Economic Development Zone	Shi Baofu Tel.: +86-13605099676; +86-596-8626218 E-mail: cskfqfgj@sina.com
12	Quanzhou	Maritime Silk Road Central Legal District Quanzhou Area	Legal affairs	We plan to introduce enterprises/projects relating to the whole chain of legal affairs including public legal services, lawyer affairs, judicial assistance, intelligent legal affairs, and legal theory research into leased or purchased office buildings.	Fengze Working Group of Quanzhou Maritime Silk Road Central Legal District Construction Leading Group	Chen Jianqiu Tel.: +86-13205956669
13	Quanzhou	Quanzhou Economic and Technological Development Zone (International IP Innovation Industrial Park)	Digital economy industry	We plan to introduce and cultivate industrial chain links, such as authorized operations, product application design, cultural and creative products, marketing, brand promotion, investment and trading to create an international IP industrial innovation park that integrates the product incubation area, exhibition area, promotion area, and digital production line area.	Investment Promotion Service Center of Quanzhou Economic and Technological Development Zone	Chen Zeping Tel.: +86-595-22351128

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
14	Quanzhou	Quanzhou Zhichuang Industrial Park	Intellectual property services	We plan to introduce intellectual property service institutions (projects) focusing on intellectual property agency, information consultation, application transformation, right protection, asset evaluation, education and training, academic research, financial services, and judicial appraisal by means of leasing.	Special Team for Zhichuang Industrial Park Project in Fengze District	Dong Sheng Tel.: +86-15280256701; +86-595-22150327
15	Quanzhou	Jinjiang Innovation, Entrepreneurship, and Creation Park	R&D and testing, S&T innovation and incubation	Focusing on such industries as software information, Internet+, smart manufacturing, energy conservation and environmental protection, new materials, new energy, and food biotechnology, we plan to introduce high-level entrepreneurship and innovation talent (teams) from R&D and testing institutions and S&T innovation and incubation enterprises to build a S&T innovation center with regional influence.	Jinjiang Sanchuang Park	Zeng Jiafei Tel.: +86-15080422478
16	Quanzhou	Quanzhou Donghai Cross-border E-commerce Park	E-commerce	We plan to introduce enterprises (projects) relating to cross-border e-commerce, live-streaming e-commerce, comprehensive e-commerce, talent training, and other business forms by leasing.	Quanzhou Donghai Cross-border E-commerce Ecosystem Operation Co., Ltd.	Lin Bo Tel.: +86-13505097799; +86-595-22303020
17	Quanzhou	Licheng Jiangbin Headquarters Economic Zone	Headquarters economy	We plan to introduce headquarters of enterprises and other related commercial establishments in the tertiary industry, including offices for business, headquarters of service enterprises, and commercial office space.	Headquarters Office of Licheng District	Cai Zhicheng Tel.: +86-15880882262
18	Quanzhou	Nan'an WINN-KOL Sanitary Ware Live-streaming Park	Supply chain platform	We plan to introduce upstream and downstream suppliers of bathroom cabinet parts such as washbasins, main cabinets, shelves, side cabinets, bathroom countertops, taps, mirrors, mirror cabinets, and hardware accessories.	Nan'an JOMOO Smart Industrial Park	Zhuang Xiaoyong Tel.: +86-15980416900
19	Sanming	Mingxi Railway Station Logistics Park	Modern logistics industry	We plan to introduce modern service industrial projects such as the processing, warehousing, logistics and distribution center, exhibition center, financial center office buildings, business hotels, conference center, and commercial center.	People's Government of Hufang Town, Mingxi County	Yan Guohua Tel.: +86-18459858500
20	Sanming	Suixi Town, Jianning County	Highway-railway combined transport	We plan to build the highway-railway combined transportation project (Phase II) in Jianning County, and introduce such projects as container transportation, cold chain logistics, and warehousing and distribution.	People's Government of Suixi Town, Jianning County	Yan Hongwei Tel.: +86-18859818768

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
21	Sanming	Innovation Center of Sanming Zhongguncun Science Park	Platform economy	We plan to introduce projects relating to the digital economy, headquarters economy, scientific and technological R&D, and others.	Sanming Zhongguncun Science Park Operation Service Co., Ltd.	Jiang Shizhong Tel.: +86-13901377969
22	Putian	Putian North Meizhou Bay Economic Development Zone	Bulk commodity trade, storage, and transportation base	We plan to build the Luoyu Bulk Commodity Trade, Storage, and Transportation Base in Meizhou Bay, Luoyu Port, with a storage capacity of approximately 90 million tons and a total construction area of approximately 900 hectares. The base will consist of two areas: (1) Luoyu Island area, with a planned construction area of 350 hectares and a static storage capacity of 50 million tons for iron ores; (2) Shimmen'ao area, with a planned construction area of approximately 550 hectares and a static storage capacity of 20 million tons for iron ores and 20 million tons for non-ferrous ores. We will mainly introduce Chinese central state-owned enterprises (SOEs), SOEs, industrial listed companies, and industrial-leading enterprises.	North Bank Management Committee	Tang Zhaohui Tel.: +86-13599022908
23	Putian	Putian International Logistics Port (Hushi Town, Xiuyu District)	International logistics port	With a planned area of 266.7 hectares, this logistics port will be built in two phases. Phase I will highlight a land-rail transportation Fujian distribution center to integrate modern logistics services such as express delivery, consolidation services, cold chain logistics, specialized warehousing, cross-border e-commerce, and information services. Phase II will establish a comprehensive bonded zone, featuring a modern logistics center with transportation and distribution, information processing, bonded warehousing, processing, and commercial support functions. We plan to attract famous logistics enterprises.	Investment Promotion Service Center of Xiuyu District	Yang Zhi Tel.: +86-13959513242
24	Putian	Xiangang Industrial Park in Xianyou County (Cross-border E-commerce Logistics Park)	Cross-border e-commerce	We plan to build a cross-border e-commerce logistics park, with an area of 20 hectares, to mainly attract cross-border e-commerce and logistics enterprises renowned at home and abroad.	Bureau of Commerce of Xianyou County	Chen Junbing Tel.: +86-15959417828

S/N	City	Implementing Entity	Sector	Requirement Details	Point of Contact	Contact Information
25	Putian	Cross-border E-commerce Cloud Industrial Park in Licheng District	Cross-border e-commerce	We plan to build a shared cargo warehouse and an 8.8-hectare shoe and clothing niche brand and personalized customization production base in the cloud industrial park, with the aim of attracting cross-border e-commerce companies to settle in surrounding buildings. Meanwhile, we will build supporting infrastructure such as a financial district, hotels, and roads. All our efforts aim to form a cross-border e-commerce industry ecosystem that integrates the city's cross-border e-commerce companies and centers for products, sales, logistics, operations, incubation, and R&D.	Bureau of Commerce of Licheng District	Huang Meifang Tel.: +86-13950745658
26	Putian	Lingang Industrial Park in Xiuyu District	Demonstration of modern marine productive services	The project is located in Dongzhuang Town, Xiuyu District. We plan to construct seven core functional ecological areas, including a port-surrounding cold chain logistics area, a smart standardized sorting area for goods, an international fresh product trading area, an industrial public service area, a sightseeing area, a headquarters economic area, and a living supporting area. We plan to introduce such projects as marine pharmaceuticals and bioproducts, and deep processing of aquatic products.	Ocean and Fisheries Bureau of Xiuyu District	Yan Zhihong Tel.: +86-13850289126
27	Longyan	Shanghang County Industrial Park	Smart Vegetable Basket and Comprehensive Commercial Logistics Park	With a total investment of RMB 213 million, Phase I will highlight a smart vegetable basket project to build a smart centralized purchasing center, a food security digital testing center, a supply-chain big data management platform, a modern cold-chain logistics network, an agricultural product live streaming center, an agricultural and sideline products processing center, a pre-made food brand production and sales base, a contracted agriculture system, and a modern planting and breeding base. With a total investment of RMB 1.16 billion, the Phase II project will focus on building a comprehensive trade and logistics industrial park featuring such functions as intelligent warehousing, trading, distribution, e-commerce, enterprise headquarters economy, and exhibition.	Bureau of Commerce of Shanghang County	Liu Zhiqiang Tel.: +86-597-3131059
28	Ningde	China (Gutian) Edible Mushroom Products Distribution Center	Modern logistics	We plan to build a domestically first-class distribution center covering an area of about 33.3–40 hectares. It will integrate a modern edible mushroom product exhibition and trade (online and offline) center, a warehousing center, a capital settlement center, a logistics distribution center (including cold chain logistics), and market supporting facilities (parking lots, a management center, and a catering service center). We plan to introduce 30 related supporting service companies.	Gutian County Edible Mushroom Industrial Development Center	Zhou Xiang Tel.: +86-13950500119; +86-593-2161861 E-mail: gtxsyj@126.com
